Value Added Course (Jan-June2020/July-Dec 2021)

Dear Students,

This is to inform you all that in upcoming even or odd semester (Jan-June/July-Dec) Value Added Course will be offered to students presently studying in I/III/V/VII or II/IV/VI Semester by the Institute.

Name of Course: environmental studies

Name of Resource Person: dr. vandita rawat

Name of Faculty Coordinator: dr. vandita rawat

HOI/Dean

People's college of dental sciences & research centre

Value Addition Course: environmental studies

Introduction: This course is offered by pcds &rc, targeting students who wish to acquire knowledge about It provides fundamental Concepts, the necessary knowledge and the basic skills related to

Course Outcomes: At the end of the course, students will be able to,

- Master core concepts and methods from ecological and physical sciences and their application in environmental problem solving.
- Master core concepts and methods from economic, political, and social analysis as they pertain to the design and evaluation of environmental policies and institutions.
- Appreciate the ethical, cross-cultural, and historical context of environmental issues and the links between human and natural systems

Course Content / Syllabus:

climate change, biodiversity and environmental management, pollution and control, population dynamics, ecosystems and urbanisation, tackling some of the global grand and pressing problems that will ensure human needs are met in a sustainable way

Mode of Assessment: test

People's college of dental sciences & research centre

Report of Value Addition Course

Date (From - To): Jan-June2020/July-Dec 2021

Title of Event: environmental studies

Venue: PCDS & RC

No. of Participants (Faculty member and Student separately):90

Brief about the event (Minimum 50 words)

Environmental studies is one of the most relevant subjects with a wide scope and several career opportunities from governments harping on sustainable development, industries trying to adopt sustainable ways of production, big organisations like UN and WHO

Supporting Documents:

- No. of Participants Attended: (Attach Attendance Sheet & List of Enroll Students)
- No. of Participants Completed: (Attach Result Sheet)
- Copy of Certificate
- Photograph / Video Recording.
- Press Release. (If any)
- Fund utilization in case of external sponsorship. (If any)
- Letter of Collaboration/ sponsorship. (If any)
- Brochure (If any)

NOTE-:

- This format is used for creating Supporting Documents for Data, Filled in Data Template (1.3.2 & 1.3.3).
- This is the Sample Document. This Format only for reference you can change accordingly.

*Value Addition Course: (Defination)

Courses of varying durations (of at least 15 contact hours), that are optional, and offered outside the curriculum that add value and helping them students in getting placed.

Notification

Value Added Course (Jan-June2020/July-Dec 2021)

Dear Students,

This is to inform you all that in upcoming even or odd semester (Jan-June/July-Dec) Value Added Course will be offered to students presently studying in I/III/V/VII or II/IV/VI Semester by the Institute.

Name of Course: disaster management

Name of Resource Person: Dr. Balbahadur Dangi

Name of Faculty Coordinator: Dr. Balbahadur Dangi

HOI/Dean

People's college of dental sciences & research centre

Value Addition Course: environmental studies

Introduction: This course is offered by pcds &rc, targeting students who wish to acquire knowledge about It provides fundamental Concepts, the necessary knowledge and the basic skills related to

Course Outcomes: At the end of the course, students will be able to,

warnings, reduced vulnerability or the prevention of disasters during the next iteration of the cycle. and plans that either modify the causes of disasters or mitigate their effects on people, property, and infrastructure.

Course Content / Syllabus:

Course Outline Unit: I Definition and types of disaster Hazards and Disasters, Risk and Vulnerability in Disasters, Natural and Man-made disasters, earthquakes, floods drought, landside, land subsidence, cyclones, volcanoes, tsunami, avalanches, global climate extremes. Man-made disasters: Terrorism, gas and radiations leaks, toxic waste disposal, oil spills, forest fires. Unit: II Study of Important disasters Earthquakes and its types, magnitude and intensity, seismic zones of India, major fault systems of India plate, flood types and its management, drought types and its management, landside and its managements case studies of disasters in Sikkim (e.g) Earthquakes, Landside). Social Economics and Environmental impact of disasters. Unit: III Mitigation and Management techniques of Disaster Basic principles of disasters management, Disaster Management cycle, Disaster management policy, National and State Bodies for Disaster Management, Early Warning Systems, Building design and construction in highly seismic zones, retrofitting of buildings. 4 Unit IV Training, awareness program and project on disaster management Training and drills for disaster preparedness, Awareness generation program, Usages of GIS and Remote sensing techniques in disaster management, Mini project on disaster risk assessment and preparedness for disasters with reference to disasters in Sikkim and its surrounding areas.

Mode of Assessment: test

VALUE ADDED COURSE

SYLLABUS ON

BIOETHICS

Title of the course: Certificate course in Bioethics

1) Objectives of the course:

After completion of this course, participants will be able to:

1. To promote yoga in medical education
2. To teach medical students about the basic concept of yoga and types of yoga
3. To enhance knowledge on Indian traditional holistic mind-body medicine
4. To train medical student on importance of mind-body therapy and its clinical benefits
5. To promote research on yoga

2) Target group

Candidates pursuing bachelor's degree and master's degree in nursing

3) Course content or syllabus:

- i. Introduction to ethics/bioethics-including history of Ethics.
- ii. Various codes of bioethics.
- iii. Principles of ethics with examples.
- iv. Clinical ethics.
- v. Constitution of IEC & RAC
- vi. Ethics committee role in research.
- vii. Bioethics and Law.
- viii. Ethics issues at the beginning & end of life.
- ix. Ethical issues involved in recent advances in science and technology such as Genetics, Stem Cell Research and Assisted Reproductive Technology.

4.Number of hours required: 15 hours.

5. Teaching-learning methods to be adopted :

Interactive teaching, competency based learning , Self-directed learning

Assessment methods planned :

Formative- Assessment of assignments and development of synopsis.

Summative- Multiple choice questions.

6. Certification criteria:

- i) Minimum 80% attendance.
- ii) 50% scoring in formative assessment.
- iii) Well designed manuscript which is ethically accepted.

7. **Name of the co-ordinator:** Prof. Alka Rai

8. **Name of the specific course co-ordinator:** Mrs. Mariyam Gomes

9. **Time when course can be conducted :-** BSc Nursing III year.(one class a week from the inception of new academic session.)

VALUE ADDED COURSE
SYLLABUS ON
COMMUNICATION SKILLS

Title of the Course: Communication Skills

Duration: 20Hours (once in a week)

Objective of the Programme:

1. To enrich the communication skill of the students
2. To teach correct grammar
3. To upgrade and use the vocabulary

Pedagogy:

- 60% Theoretical approach (Using Power point Presentations or any other teaching aids)
- 40% Practical approach (Active Demonstrations and simulations)

Syllabus outline:

1. Written Communication
2. Letter drafting
3. Spoken English skills

Syllabus Hours:

20 Hours duration

Communication:

5 Hours

Strategy for Effective Communication, Verbal and Non-Verbal Communication, Barriers to Communication, Essentials of Good Communication, Communication Techniques.

Effective Writing Skills:

10Hours

Elements of Effective Writing, Main Forms of Written Communication: Agenda, Minutes, Notices, Memo, Drafting an E-mail, Press Release. Correspondence: Personal, Official and Business, Report Writing.

Effective Speaking skills

5 Hours

Use of proper grammar, ability to read, listen and comprehend the text meaningfully, Oral discussion, Debate, Speech, Role Plays.

Course-End Test

Duration of the Test: 1 Hour

Total Marks: 50

Written Test: 30 Marks

Practical Test: 20 Marks

Minimum Score: 50 %

SYLLABUS

Unit 1 : Multidisciplinary nature of environmental studies (1)

Defination, Scope and importance (2)

Need for public awareness

Unit 2 : Natural Resources :

Renewable and non-renewable resources : (3)

Natural resources and associated problems

- a) Forest resources : Use and over-exploitation, deforestation, case studies.
Timber extraction, mining, dams and their effects on forest and tribal people.
 - b) Water resources : Use and over-utilization of surface and ground water, floods, drought, conflicts over water, dams-benefits and problems.
 - c) Mineral resources : Use and exploitation, environmental effects of extracting and using mineral resources, case studies.
 - d) Food resources : World food problems, changes caused by agriculture and overgrazing, effects of modern agriculture, fertilizer-pesticide problems, water logging, salinity, case studies.
 - e) Energy resources ; Growing energy needs, renewable and non renewable energy sources, use of alternate energy sources, Case studies.
 - f) Land resources : Land as a resource, land degradation, man induced landslides, soil erosion and desertification.
- Role of an individual in conservation of natural resources. (4)
 - Equitable use of resources for sustainable lifestyles.

Unit 3 : Ecosystems

- Concept of an ecosystem
- Structure and function of an ecosystem
- Producers, consumers and decomposers
- Energy flow in the ecosystem
- Ecological succession
- Food chains, food webs and ecological pyramids
- Introduction, types, characteristic features, structure and function of the following ecosystem :- (6)
 - a. Forest ecosystem
 - b. Grassland ecosystem
 - c. Desert ecosystem
 - d. Aquatic ecosystem (ponds, streams, lakes, rivers, oceans, estuaries)

Unit 4 : Biodiversity and its conservation

- Introduction – Definition : genetic, species and ecosystem diversity. (7)
- Biogeographical classification of India
- Value of biodiversity : consumptive use, productive use, social, ethical, aesthetic and option values
- Biodiversity at global, National and local levels. (8)
- India as a mega-diversity nation
- Hot-spots of biodiversity
- Threats to biodiversity : habitat loss, poaching of wildlife, man-wildlife conflicts (9)
- Endangered and endemic species of India
- Conservation of biodiversity : In-situ and Ex-situ conservation of biodiversity

Unit 5 : Environmental Pollutions

Defination (10)

- Cause, effects and control measures of :-
 - a. Air pollution
 - b. Water pollution
 - c. Soil pollution
 - d. Marine pollution
 - e. Noise pollution
 - f. Thermal pollution
 - g. Nuclear pollution

- Solid waste Management : Causes, effects and control measures of urban and industrial wastes. (11)
- Role of an individual in prevention of pollution
- Pollution case studies
- Disaster management : floods, earthquake, cyclone and landslides (12)

Unit 6 : Social Issues and the Environment (13)

- From Unsustainable to Sustainable development
- Urban problems related to energy
- Water conservation, rain water harvesting, watershed management
- Resettlement and rehabilitation of people, its problems and concerns. Case studies
- Environmental ethics : Issues and possible solutions
- Climate change, global warming, acid rain, ozone layer depletion, nuclear accidents and holocaust. Case studies
- Wasteland reclamation (14)
- Consumerism and waste products
- Environment Protection Act (15)
- Air (Prevention and Control of Pollution) Act
- Water (Prevention and Control of Pollution) Act
- Wildlife Protection Act
- Forest Conservation Act
- Issues involved in enforcement of environmental legislation
- Public awareness

Unit 7 : Human Population and the Environment

- Population growth, variation among nations (16)
- Population explosion – Family Welfare Programme
- Environment and human health
- Human Rights
- Value Education
- HIV/AIDS (17)
- Women and Child Welfare
- Role of Information Technology in Environment and human health (18)
- Case studies

Unit 8 : Field Work

- Visit to a local area to document environmental assets-
river/forest/grassland/hill/mountain (19)
- Visit to a local polluted site-Urban/Rural/Industrial/Agriculture (20)
- Study of common plants, insects, birds (21)
- Study of simple ecosystems-pond, river, hill, slopes, etc. (22)

VALUE ADDED COURSE SYLLABUS ON YOGA AS RELAXATION THERAPY

Introduction

Yoga or yogasanas are considered as art and science of healthy living by our ancient gurus. It is method to bring harmony of body and mind for general wellbeing. Yoga is considered as one of the greatest gifts to the world by Indians for healthy living. Students are benefitted by learning yoga.

The certificate course in yoga for all the students of PCN & RC was started in view of its various advantages and proved evidence in improving the health, efficiency and managing stress related problems. It will be an optional value-added course with certification.

GOAL: At the end of successful completion of the course, the student will be able to understand the scientific basis of Yoga and practice various yogasanas effectively and correctly for their health benefit.

General Objectives of the Course:

1. To promote yoga in nursing education
2. To teach Nursing students about the basic concept and types of yoga
3. To enhance knowledge on Indian traditional holistic mind-body relation in terms of health
4. To help students practice yoga in their day-to-day life in order to maintain mind-body balance.
5. To promote research on yoga

Eligibility for Admission

Any Candidate who is a student of PCN & RC will be eligible for the admission to the certificate course in Yogacourse.

Medium of Instruction and Examination

Medium of Instruction of the Certificate Course in Duration of the Course

The duration of the course will be for 30 weeks (40 hours). Each working day shall consist of one hour of teaching (theory 10 & practical 30 hours).

- a) Yoga will be in English and Hindi
- b) Evaluation of course will be on the basis of attendance, behavior & discipline, practical knowledge obtained during training period. There will be no theory written examination.

Certificate will be issued by the People's College of Nursing and Research Centre

Teaching –Learning methodology

- The classes will be mainly interactive with brief description of the various asanas, its scientific basis and will be taught how to perform the asana correctly with adequate practice sessions.
- Students will be encouraged to interact freely and practice in the presence of tutors so that appropriate correction and suggestions can be made.
- Later, will be encouraged to use the learnt content with their peers, faculty and support staff.

SYLLABUS

The course consists of theory and practical training on yoga therapy.

Theory : 15 hours

Practical: 25 hours

Name of the Course	Hours		Examination
YOGA	Theory	Practical	No
	10 Hours	30 Hours	

Unit	Content (Theory)	Hours	Teaching/ Learning Activities
I	Introduction to Yoga Definition of Yoga Brief history and development of Yoga	01	Lecture cum Discussion
II	Yogic concept of mind & body Streams of Yoga Difference between Yoga and exercise	03	Lecture cum Discussion
III	Physiology of Asanas Physiology of Pranayama Physiology of Meditation	04	Group discussion and Self Directed Learning
IV	Diet in Yoga	02	Lecture cum Discussion

S.No	Content (Practical)	Hours	Teaching/ Learning Activities
1	Loosening practices (Sithila vyama) i. Neckrotation ii. Shoulderrotation iii. Wristrotation iv. Hiprotation v. Forward and backwardbending vi. Sidebending vii. Twisting	03	Demonstration and redemonstration
2	Suryanamaskar Suryanamaskara or sun salutation involving 12 Asanas are trained in a sequence in synchronization with breath control	02	Demonstration and redemonstration

S.No	Content (Practical)	Hours	Teaching/ LearningActivities
3	Standing asanas i. Tadasana ii. Padhastasana iii. Ardchakrasana iv. Trikonasana v. Parvrittrikonasana vi. Vriksasana vii. Garudasana	03	Demonstration and redemonstration
4	Sitting asanas i. Vajrasana ii. Shashankasana iii. Suptavajrasana iv. Ustrasana v. Paschimottansana vi. Janusirsana Ardhamatsendriyasana	03	Demonstration and redemonstration
5	Prone asanas i. Makrasana ii. Bhujangasana iii. Shalabhasana Dhanurasana	03	Demonstration and redemonstration
6	Supine asanas i. Sarvangasana ii. Matysasana iii. Halasana iv. Chakrasana v. Ardchakrasana vi. Ardhalasana vii. Naukasana viii. Markatasana ix. Setubandhasana Shavasana	05	Demonstration and redemonstration
7	Kriyas i. JalaNeti ii. SutraNeti iii. Dhauti(Vamana) iv. Kapalabhati v. Nauli Trataka	04	Demonstration and redemonstration

8	Pranayama i. Anuloma-viloma ii. Ujjayi iii. Shitali iv. Sitkari v. Bhastrika vi. Bhramari vii. Suryabhedana Chandrabhedana	05	Demonstration and redemonstration
9	Meditation i. Ommeditation ii. Nadanusandhana CyclicMeditation	03	Demonstration and redemonstration
10.	Relaxation techniques	02	Demonstration and redemonstration
Total		30	

Short-Term course Modules

1. Soft Skills and Personality Development

Time Duration: 18-20 Hrs.

Learning outcomes:

By the end of this program, participants will be able, to communicate more effectively and efficiently by:

- i. Listening, and responding with an open mind in a more effective way.
- ii. Using appropriate communication methods.
- iii. Minimizing communication barriers.
- iv. Using verbal and non-verbal messages appropriately.
- v. Relating and networking with others at work.
- vi. Giving and receiving instruction correctly
- vii. Maintaining a working relationship with clients.

Course Outline:

1. Introduction, Need for Communication, Process of Communication
2. Written and Verbal Communication, Visual communication
3. Barriers to Communication
4. Improving Communication Skills
 - Preparation of Promotional Material
 - Non-verbal communication
 - Body language
 - Postures and gestures
 - Value of time
 - Organizational body language
 - Importance of Listening
 - Emotional Intelligence
5. Types of skills; conceptual, supervisory, technical, managerial and decision making skills
6. Business Presentations : Preparing and Delivering the Presentations, Use of Audio-visual Aids

2. Professional Development Training Module

Time Duration: 18-20 Hrs.

Learning Objectives:

- a) Relating and networking with others at work.
- b) Maintaining a working relationship with colleagues and clients as well.

Course Outline:

1. Introduction to Professional Development
2. Career Planning: Self-Assessment
3. Identifying Your Professional Talents
4. Career Planning: Professional Career Exploration
5. Strategic Planning: Goal Setting, Time Management & Resources
6. Using LinkedIn & Social Media
7. Developing Your Professional Resume
8. Enhancing Your Professional Resume
9. Preparing Your Career and Internship Cover Letters
10. Professional Communications
11. Preparing for Your Professional And Internship Interviews
12. Developing Your Professional Career Portfolio
13. Getting to Know YOU: MBTI & Career Planning
14. Social Situations: Etiquette, Networks & Mentoring

3. Digital Marketing

Time Duration: 18-20 Hrs.

Learning Objectives:

1. Understand how and why to use digital marketing for multiple goals within a larger marketing and/or media strategy
2. Understand the major digital marketing channels - online advertising: Digital display, video, mobile, search engine, and social media
3. Learn to develop, evaluate, and execute a comprehensive digital marketing strategy and plan
4. Learn how to measure digital marketing efforts and calculate ROI
5. Explore the latest digital ad technologies

Course Outline:

1. Introduction to Digital Marketing
 - Digital Marketing Opportunities
 - Digital Leadership
2. Digital Marketing Techniques
 - SEO
 - SMM
 - SEM
 - SMO etc.
3. Introduction to Digital Marketing Tools: Content Marketing Tool, SMM Tools

9. Video Marketing
10. Content Marketing
11. E-mail Marketing
12. Online Reputation Management: Introduction, ORM activities, Content Management, Social Profile Management.

4. Inbound Marketing from Hub spot:

Time Duration: 18-20 Hrs.

Course Outline:

1. Understanding the fundamentals of Inbound
2. Growing your Business with a flywheel Model
3. Understanding the Inbound Principles
4. Creating Buyers Personas
5. Understanding the Buyers Journey
6. Creating a Company Purpose
7. Setting Business Goals

Value Added Course in Digital Marketing

India has witnessed an exponential growth in the internet and mobile phones users during the recent decade. It has opened a wide range of communication tools for the individuals and organizations. Today, the communication through online platforms has become a key element of Integrated Marketing Communication strategy and changed the way how organizations communicate with their stakeholders. Organizations have started using internet and digital devices in their main marketing strategy in the form of digital marketing. Digital marketing is rapidly growing force in the present marketing domain and is set to be the future of marketing. It has resulted in numerous opportunities and avenues for advertising and marketing both in domestic and international business environment.

Therefore, there is a need to understand the fundamentals of Digital Marketing and to inculcate the skills of digital marketing among students. In this background, a course on Digital Marketing has been designed which aims to build conceptual foundation of digital marketing and to develop the students' skills to plan, implement and monitor digital marketing campaigns in globalized environment. The target audience of this course is primarily students pursuing BBA/B.Com/MBA and other management related courses. However, anyone who wants to leverage the power of digital marketing in his business or profession may join this course.

Prerequisites of the course are; Basic Knowledge of internet and internet browsing Experimental and Analytical mind-set, No Hard-core technical knowledge required to pursue this course.

Objectives throughout a digital marketing strategy are:

Conversion/sales: That is commercial success.

Consideration: That is evaluating if the product or brand meets your needs.

Awareness: This is about audience reach.

Retention: This enables you to establish customer engagement.

Course layout

1:Introduction to Digital Marketing and its Significance 2: Traditional Marketing Vs Digital Marketing 3:Digital Marketing Process

4:Website Planning and Development : Types of websites 5:Website Planning and Development : Keywords

6:Understanding Domain and Webhosting 7:Building Website/Blog using CMS WordPress 8:Using WordPress Plug-ins

9:Introduction to Search Engine Optimization 10:Keyword Planner Tools 11:On Page SEO Techniques-Indexing and Key Word Placement

Learning out-comes

Students should demonstrate their understanding of the various new media such as; social media, mobile technology, web analytics, searches engine optimization, viral advertising etc. Exercise critical judgement in creating new understanding. Critically assess existing understanding and recognise the need to regularly challenge all knowledge. Identify and apply new ideas, methods and ways of thinking.

Customer Relationship Management

Objectives

- To understand the concepts and principles of CRM
- To appreciate the role and changing face of CRM as an IT enabled function, and
- To enable managing Customer Relationships.

CRM concepts - Acquiring customers, Customer loyalty and optimizing customer relationships - CRM defined - success factors, the three levels of Service/ Sales Profiling - Service Level Agreements (SLAs), creating and managing effective SLAs.

CRM in Marketing - One-to-one Relationship Marketing - Cross Selling & Up Selling - Customer Retention, Behaviour Prediction - Customer Profitability & Value Modeling, - Channel Optimization - Event-based marketing. - CRM and Customer Service - The Call Centre, Call Scripting - Customer Satisfaction Measurement.

Sales Force Automation - Sales Process, Activity, Contact- Lead and Knowledge Management - Field Force Automation. - CRM links in e-Business - E-Commerce and Customer Relationships on the Internet - Enterprise Resource Planning (ERP) CRM Implementation - Defining success factors.

Human Resource Management and Leadership Specialization

WHAT YOU WILL LEARN

- Analyze how to motivate staff with meaningful work
- Understand how to enable your organization to deliver on its strategic objectives
- Examine the ways you can harness your team's diversity and use teamwork to innovate and increase your organization's output
- Evaluate leadership theories and develop your personal leadership skills

Course Duration: 20hrs

Course Outline

Organizational alignment	Organizational culture
Organizational structure	Organizational control systems

- **Organizational alignment**

Welcome to your first week of the Know your organisation course. Have you ever wondered what it means to be more strategic as a leader? What differentiates a leader from a strategic leader? Of course, this label can mean all sorts of things; some people seem to have started using it simply because it sounds good! But when it comes to leading an organisation, being "strategic" does have a specific meaning. It is about ensuring that your organisation is fully focused on executing its business strategy. What does this involve exactly? How do you make sure that your organisation can deliver on the business strategy? This week you learn to understand the organisation as consisting of a number of elements: people, structure, culture, and systems. Each of these elements will be covered in depth in weeks 2-5 of the course. In this first week, you will take a broader perspective across them as a basis for understanding the importance of aligning them in such a way that they can enable the execution of the business strategy. This focus on alignment brings us to the central concept for this week: key capabilities.

This week you will learn what key capabilities are, why they are so important for strategically focusing your organisation, and how you can identify them. If you learn to master the ability to clearly define a set of key capabilities for any given strategy, and are able to align your organisation to these, you will become a truly effective leader, worthy of the term "strategic".

- **Organizational culture**

What do you think is the most challenging aspect of making sure that your organisation can deliver on its business strategy? Many senior executives would definitely say: "organisational culture". When your organisational culture works to support your business strategy it gives you a huge advantage; when it doesn't it can spell disaster. So what is "organisational culture" exactly and what is so challenging about it? And how do you know if your culture is aligned with your strategy? These are some of the key questions that you will grapple with this week. You will learn to apply a powerful diagnostic tool for identifying your predominant culture type, and for assessing whether you should try to change it or not. You will also learn a number of important change levers that you can influence if you do decide culture change is needed. Be careful though! The road of culture change can be treacherous. This week you will learn how to navigate it better.

- **Organizational structure**

What would you do first if you wanted to fundamentally change the direction of your organisation? Well, if you are like most leaders, you would definitely consider changing the structure of the organisation. But when you dig a bit deeper into this topic, you will quickly discover that there are a huge number of structural options to choose from. So how do you know which option is best? What are the main types of organisational structure, and what are their advantages and disadvantages? How do you make sure that your organisation structure enables your business strategy, instead of making strategy execution more difficult? These are the key questions that you will engage this week. You will learn about the key trade-offs involved in organisational structure decisions, and how to balance these trade-offs in relation to your business strategy. And you will learn to apply a powerful 4-step process for developing an effective organisational structure for your organisation. Even if you are not in a position yet to directly influence the structure of your organisation, wouldn't it be great to at least know what the structure of your organisation should be, theoretically speaking? This week is focused on just that.

- **Organizational control systems**

What are systems for exactly? This can be quite a tricky question because it obviously depends on the particular system we are talking about. Yet, from a management perspective there is a straightforward general answer to this question: systems are there to control performance and

risk. This week you will learn what this means exactly, and what the most important implications are for how you design your systems around your business strategy. You will learn to understand systems more broadly than just IT systems, and how to deploy them effectively to manage and control performance and risk. An important part of this involves deciding on the key indicators that you want to track, and how you want to report information that is strategically relevant. Too many business leaders drown in numbers to the point where they can't see the wood from the trees. This week is focused on helping you design systems that can keep you focused on seeing the wood instead of the trees.

18-20 Hours / Live & interactive / Batch 1

PROFESSIONAL CERTIFICATE PROGRAM IN STRATEGIC MANAGEMENT

Peoples Institute of Management & Research, Peoples University, Bhopal

***PROFICIENCY IN ENGLISH, SPOKEN & WRITTEN IS MANDATORY**

Enhance business acumen with right set of strategies: Learn to excel in critical decision making process and effectively set strategic directions for organization

Convert conceptual learning into actual business decisions: Learn to apply the conceptual learning from the course to actual organizational decision scenarios

Accelerate your leadership graph: Gain structured knowledge of the strategic management process that can help hasten your leadership journey.

360° understanding of the strategic management process: This course covers all the aspects, like, strategic thinking, planning, and execution and strategy applications

Details

WHO SHOULD ATTEND

Industry leaders who make critical business decisions and set strategic directions for their organization.

Functional/Division heads who are tasked with growth objectives for their respective business units.

Middle level executives aspiring to move into roles that requires significant contribution to organizational growth and revenues.

Working professionals holding responsible positions and wish to upgrade their knowledge of aspects of strategic management.

Students pursuing Masters study in any field of Business and Management

Eligibility

Education

For Indian Participants – Graduates (10+2+3) or Undergraduates (10+2) or Diploma Holders (only 10+2+3) from a recognized University (UGC/AICTE/DEC/AIU/State Government) in any discipline.

For International Participants – Graduation or equivalent degree from any recognized University or Institution in their respective country.

Proficiency in English, spoken & written is mandatory.

Syllabus

Module 1 : Strategic Thinking

Foundations of Strategy

Strategic Thinking

Module 2 : Strategic Planning

External Analysis

Internal Analysis

Corporate Strategy

Business Strategy

Operations Strategy

Module 3 : Strategy Execution

Organizational Structure & Systems

Strategy Execution

Performance Evaluation

Corporate Governance & Sustainability

Module 4 : Strategy Application

Competitive Dynamics

Growth & Diversification

Internationalization

Joint Ventures & Alliances

Mergers & Acquisitions

Module 5 : Strategic Challenges

Technology Strategy

Innovation Strategy

Entrepreneurship & New Ventures

About Course

An organization involves a huge principal investment which makes strategizing an essential aspect for running successful internal operations and to get viable returns on the invested money. Realizing

the fact that strategic planning is quintessential in successfully assisting a business through any sudden contingencies, organizations are promisingly adapting the strategic management process.

An organization's ability to achieve growth and success majorly depends on the ability of its senior management and leaders to formulate effective strategies and productively execute them. Their involvement in one or the other phase of the Strategic Management process makes it imperative for them to develop strategical skills and lead the organization onto the success path.

So if you're an important milestone in the organization's decision making process then this course will aid you to contribute to business success and share it through your own professional progress. The objective of strategic management course is to help the participants develop their competence in the Strategic Management process which consists of Strategic Thinking, Strategic Planning, Strategy Execution and Strategy Applications.

Pedagogy

The primary method of instruction will be through lectures that will be beamed online via Internet to student desktops/laptops or classrooms. The course will be delivered through a combination of methods selected from among LIVE lectures, case analysis, discussions, exercises, assignments, group/individual presentations, term projects, quizzes and tests. Throughout the duration of the course, students will have the flexibility to reach out to the professors, real time during the class or offline to raise questions and clear doubts.

Notification

Value Added Course (July-Dec 2021)

Dear Students,

This is to inform you all that in upcoming even semester (July-Dec 2021) Value Added Course will be offered to students presently studying in B Tech VI Semester by the Institute.

Name of Course: Use of Total Station

Name of Resource Person: Mr. Rajendra Rajdev

**Name of Faculty Coordinator: Mr. Hirendra Pratap Singh and Mr. Satish Kumar
Kushwah**

Dates: 13 Sep-18 ep-2021

Registration Link/Form/Other: Form

Last date of Registration: 11 Sep-2021

HOI/Dean

School of Research and Technology (Faculty of Engineering)

Value Addition Course: Use of Total Station

Introduction: This course is offered by department of civil engineering of SORT, targeting students who wish to acquire knowledge about total station. It provides fundamental Concepts, the necessary knowledge and the basic skills related to total station.

Course Outcomes: At the end of the course, students will be able to understand

- [1]. Operations of total station
- [2]. EDM Range and accuracy of total stations
- [3]. Other feature of total station

Course Content / Syllabus:

Introduction of Total station, Use of total station in surveying, Operations of total station, General of Total Station, Prism pole of total station, EDM Range and accuracy of total stations, Instrument control of total station, Angular accuracy of total station, Other feature of total station, Advantage & disadvantage of total station, Types of total station (Manual, Semi automatic ,Automatic total station, Servo driven and robotic total station)

Reference Books:

1. P.T.Gopi; Advanced Surveying: Total Station, GIS and Remote Sensing; Pearson India; 1st edition (January 1, 2007)
2. Gopi Satheesh, R.Sathikumar , N. Madhu; Total Station, GPS, GIS & Remote Sensing; Pearson Education; Second edition (25 September 2017)

Mode of Assessment: Quiz/Test/Other

1. In total station, data is stored in _____
 - a) Pen drive
 - b) Data card
 - c) Micro processor
 - d) External hardware
2. The stereo plotting instruments are generally manufactured on the principle of
 - A. optical projection
 - B. optical mechanism projection
 - C. mechanical projection
 - D. all the above.
3. Latitude of a place is the angular distance from
 - A. Greenwich to the place
 - B. equator to the poles
 - C. equator to the nearer pole
 - D. equator to the nearer pole along the meridian of the place
4. International date line is located along
 - A. standard meridian
 - B. Greenwich meridian
 - C. equator
 - D. 180° longitude
5. The orthogonal projection of the perspective centre on a tilted photograph, is called
 - A. nadir
 - B. isocentre
 - C. principal point
 - D. plumb point.
6. The principal plane contains
 - A. nadir point
 - B. iso centre
 - C. principal point

-
- D. principal axis and principal line
7. The point where vertical line passing through the perspective centre intersects the plane of the photograph, is known as
- A. photo plumb point
 - B. plumb point
 - C. nadir point
 - D. isocentre
8. The position of the sun when its north declination is maximum is known as
- A. vernal equinox
 - B. Autumnal equinox
 - C. summer solstice
 - D. winter solstice.
9. A nautical mile is
- A. one minute arc of the great circle passing through two points
 - B. one minute arc of the longitude
 - C. 6080 ft
 - D. 1855.109 m
10. The distance between the projection centre and the photograph, is called
- A. principal distance
 - B. principal line
 - C. isocentric distance
 - D. focal length.

Report of Value Addition Course

Date :- : 13 Sep-18 Sep-2021

Title of Event: Use of Total Station

Venue: SORT

Name(s) of Chief Guest/ Other Guests / Resource Person/ Speaker(s): MrRajendra Rajdev

Name Coordinator(s): Mr. Hirendra Pratap Singh and Mr. Satish Kumar Kushwah

Collaborator/Sponsor (if any):No

No. of Participants (Faculty member and Student separately): 30

Brief about the event (Minimum 50 words)

Some total stations also have a **GNSS interface** which combines the advantages of these two technologies (GNSS – line of sight not required between measured points; Total Station – high precision measurement especially in the vertical axis compared with GNSS) and reduce the consequences of each technology's disadvantages (GNSS – poor accuracy in the vertical axis and lower accuracy without long occupation periods; Total Station – requires line of sight observations and must be set up over a known point or with line of sight to 2 or more points with known location).

Outcome/Impact of event/activity in brief: -

- [1]. Understand about total station and their role in construction.
- [2]. Describe various operations of total station .
- [3]. Understand about various areas to survey.

[4]. Know that advanced use about total station.

Value Added Course (Jan-June 2022)

Dear Students,

This is to inform you all that in upcoming even semester (Jan-June) Value Added Course will be offered to students presently studying in diploma IV Semester by the Institute.

Name of Course: Use of Vastu Shastra in Building Planning

Name of Resource Person: Mr. Satish Kumar Kushwah and Mr. Pawan Dubey

Name of Faculty Coordinator: Mr. Pankaj Kumar Lodhi

Dates: 06 Jan-11 Jan-2022

Registration Link/Form/Other:

Last date of Registration: 04 Jan-2022

HOI/Dean

School of Research and Technology (Faculty of Engineering)

Value Addition Course: Use of Vastu Shasta in Building Planning

Introduction: Vastu Shastra or the “science of architecture” has been employed in India through ages while preparing a construction site, designing, and deciding on the spatial arrangement of a house. This science is followed to preserve the right amount of energy in the home and to usher in peace, prosperity and good luck. Vastu not only deals with the position, layout or direction of each room, it also advises you on the most desirable use of colours and decorative elements. If the various activities in a house, shop, office or industry are directionally channelised as per principles of Vastu, we begin to draw power from nature in a natural way.

Course Outcomes: At the end of the course, students will be able to,

- [1]. Understand about Vastu Shastra and their role in building planning.
- [2]. Describe various living spaces.
- [3]. Understand about various Direction and orientations.
- [4]. Know that Vastu Shastra has also been referred for building towns, cities, roads, parks etc.

Course Content / Syllabus:

Introduction, Application of Vaastu shastra selection of land surroundings slope water – source and storage colouring Vaastushastra we can remove the defects in the structure, Basic Principles of Vaastu, For better results, any activity in your residence or office should be supplemented by the cosmic position of the elements, how does an imbalance in these elements affect us, The birth of vaastu purusha.

Reference Books:

1. Ancient science of vastu Create space Independent Pub; Large Print edition (11 December 2015).
2. Talavane Krishna M.D, The Vaastu Workbook.
3. Dr N H Sahasrabudhe and Gautami N Sahasrabuddhe Remedial Vaastu for Shops, Offices & Industries.
4. Day, Christopher. Places of the Soul: Architecture and Environmental Design as a Healing Art. s.l. : Architectural Press, 2004.
5. Kent, Susan. Domestic Architecture and the Use of Space: An Interdisciplinary Cross-Cultural Study. s.l. : Cambridge University Press, 1993.

Mode of Assessment: Quiz/Test/Other

1. _____ Puranas The Details Of Vastu Shastra Is Includes

- (A) : Agni
- (B) : Kurma
- (C) : Padma
- (D) : Narada

2. Building Basically Consists Of _____ Parts

- (A) One
- (B) Two
- (C) Three
- (D) Four

3. Residential Buildings Are _____

- (A) Bungalows
- (B) Apartment
- (C) School Dormitories
- (D) All Of The Above

4. Assembly Buildings Are _____

- (A) Marriage Hall
- (B) Theatres
- (C) Assembly Hall
- (D) All Of The Above

5. The Word Orientation Means To Give _____ To The Building

- (A) Proper Alignment
- (B) Proper Direction
- (C) Proper Component
- (D) Proper Elegance

6. Which Among The Following Is Not A Principle Of Planning?

- (A) Furniture Requirements
- (B) Aspect
- (C) Prospect
- (D) Respect

7. _____ Refers To The Effect Produced By Deriving The Maximum Benefits From The Minimum Dimensions Off A Room.

- (A) Compactness
- (B) Roominess
- (C) Grouping
- (D) Privacy

8. _____ Is Nothing, But The Movement.

- (A) Circulation
- (B) Privacy
- (C) Grouping
- (D) Ventilation

9. Circulation In A Building Is Of _____ Types

- (A) One
- (B) Two
- (C) Three
- (D) Four

10. _____ Is The Planning Of Two Or More Related Rooms In Proximity Of Each Other

- (A) Grouping
- (B) Elegance
- (C) Aspect
- (D) Prospect

Value Addition Course (Jan-June 2022)**

Dear Students,

This is to inform you all that in upcoming even semester (Jan-May 2022) Value Added Course will be offered to students presently studying in 4th Semester by the Institute.

Name of Course: Java

Name of Resource Person: Mr. Aseem Bhandari

Name of Faculty Coordinator: Ms. Sneha Deokate

Dates: 20 Jan 2022 – 29 Jan 2022

Registration Link/Form/Other:Form

Last date of Registration: 18 Jan 2022

HOI/Dean

Value Addition Course: Java

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about Java. It provides fundamental concepts, the necessary knowledge and the basic skills related to Java.

Course Outcomes: At the end of the course,

[1].Students will be able to understand the importance of Classes & objects along with constructors, Arrays

[2]. Students will be able to understand importance of Multi-threading & different exception handling mechanisms,

[3].Students will be able to understand how to design, implement, test, debug, and document programs that use basic data types and computation, simple I/O, conditional and control structures, string handling and functions.

Course Content / Syllabus:

- Introduction to java, Fundamentals of objects oriented programming, Object and classes, Data abstraction and encapsulation , Inheritance, Polymorphism , dynamic Binding , Java Features compiled and Interprets , Platform Independent and portable ,object orients Distributes, Multithreaded.
- Classes, Objects and methods Defining a class, creating object, Accessing class members, visibility control constructor , Methods overloading Static Member <Inheritance ,Overriding Methods ,Final Variable and Methods ,Final classes ,Abstract Method and classers , Array , interfaces, Multiple Inheritance Defining Interface <Extending Interfaces, Accessing Interface Variable ,Packages : Putting classes together system package
- Multithreading : threads states priorities and thread scheduling , life cycle of a thread synchronization, creating and executing threads , multithreading with GUI , monitors and monitors lock Networking : Manipulating URLs , reading a file on a web server , socket programming , Security

Value Addition Course: Data Base with SQL

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about **Data Base with SQL**. It provides fundamental concepts, the necessary knowledge and the basic skills related to the working of data base.

Course Outcomes: At the end of the course,

[1]. Student will be able to understand basic database concepts, including the structure and operation of the relational data model.

[2]. Student will be able understand and successfully apply logical Data base design including E-R diagrams and database normalization.

[3]. Student will be able understand the role of the database administrator and will be able to work with SQL Queries, update statements and views in SQL.

Course Content / Syllabus:

- DBMS Concepts, architecture & Advantages
- Data models object oriented data Model, Network data model, and Relational data model
- ER modeling, entity, entity sets & types, attributes,
- Introduction to normalization.
- Relational Data models Relational Query languages
- Data definitions in SQL Queries
- Transaction Processing Concepts Concurrency Control Techniques

Value Addition Course: Programming to the Dot Net

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about Programming to the Dot Net. It provides fundamental concepts, the necessary knowledge and the basic skills related to Programming to the Dot Net.

Course Outcomes: At the end of the course, students will be able to,

- [1]. Students will be able to Create user interactive web pages using ASP.Net.
- [2]. Students will be able to Performing Database operations for Windows Form and web applications
- [3]. Students will be able to Create simple data binding applications using ADO.Net connectivity.

Course Content / Syllabus:

- Introduction to DOT NET Framework, its Architecture, Components, Languages, Application Development, Requirements and Features, Installation of DOT NET.
- C# Console Introduction to C# Program Structure, Tokens, Expressions, Data Types, Conditional Statements, Loops, Switch Case, Functions, Strings, Arrays, File Handling, Exception Handling, C# as Object Oriented Language, Classes & Objects, Constructors.
- Windows Applications: Introduction to HTML, HTML Tags, Introduction to CSS, Types, Introduction to Windows Applications.
- Web Applications :Introduction to ASP.NET, Introduction to Web Page Designing, Web Development, Static Pages, Dynamic Pages, Introduction to SQL, SQL Queries, SQL Server, Introduction to ADO.NET, Development of Applications with Data Base, Front End – Back End Connectivity, Types, Data Base Controls, Introduction to Content Management System and FCK Editor.

Value Added Course (Jan-June 2022)

Dear Students,

This is to inform you all that in upcoming odd semester (Jan-June) Value Added Course will be offered to students presently studying in VIII Semester by the Institute.

Name of Course: *Applications of Microprocessor*

Name of Resource Person: *Ms. Deepti Agrawal*

Name of Faculty Coordinator: **Mr. Manoj Singh Tomar**

Dates: 23 May-28 May -2022

Registration Link/Form/Other:

Last date of Registration: 14 May-2022

HOI/Dean

School of Research and Technology (Faculty of Engineering)

Value Addition Course: *Applications of Microprocessor*

Introduction: This course deals with the systematic study of the Architecture and programming issues of 8 bit 8085-microprocessor and interfacing with other peripheral ICs and co-processor. In addition, a 16-bit microprocessors and other chips (8255, 8251, 8253 and 8257) are introduced. The aim of this course is to give the students basic knowledge of the microprocessors (8085 and 8086) needed to develop the systems using it.

We will use microprocessor kits to check the following architecture & programmes :

- Understand the basic architecture of 8085 and 8086.
- Impart the knowledge about the instruction set.
- Understand the basic idea about the data transfer schemes and its applications
- Develop skill in simple program writing for INTEL 8085 and INTEL 8086.

Course Outcomes: At the end of the course, students will be able to,

- [5]. Understand the architecture of 8085 and 8086.
- [6]. Impart the knowledge about the instruction set
- [7]. Develop skill in simple program writing for 8085 & 8086 and applications.

Course Content / Syllabus:

Instructions Set of 8085 & 8086, stack, subroutine, assembly language, Simple Programming: 8 bit Addition and Subtraction, 16 bit Addition, Delay Subroutine using Registers, Finding lowest and Highest no. in a data array

Reference Books

1. "Fundamentals of Microprocessors and microcontrollers" by B. Ram.
2. "Microprocessor & Interfacing" by D.V hall.
3. "Consumer Electronics" by R.S Gaonkar.

Mode of Assessment: Quiz/Test/Other

1. Which of the following is correct about 8086 microprocessor?
 - A. Intel's first x86 processor
 - B. Motorola's first x86 processor
 - C. STMICROELECTRONICS's first x86 processor
 - D. NanoXplore x86 processor

2. Which of the following is a type of microprocessor?
 - A. CISC
 - B. RISC
 - C. EPIC
 - D. All of the mentioned

3. The microprocessor of a computer can operate on any information if it is present in _____ only.
 - A. Program Counter
 - B. Flag
 - C. Main Memory
 - D. Secondary Memory

4. Which of the following technology was used by Intel to design its first 8-bit microprocessor?
 - A. NMOS
 - B. HMOS
 - C. PMOS
 - D. TTL

5. Which of the following addressing method does the instruction, MOV AX,[BX] represent?
 - A. register indirect addressing mode
 - B. direct addressing mode
 - C. register addressing mode
 - D. register relative addressing mode

6. What is the word length of an 8-bit microprocessor?
- A. 8-bits – 64 bits
 - B. 4-bits – 32 bits
 - C. 8-bits – 16 bits
 - D. 8-bits – 32 bits
7. In 8-bit microprocessor, how many Opcodes are present?
- A. 246
 - B. 278
 - C. 250
 - D. 256
8. Which of the following is not true about the address bus?
- A. It consists of control PIN 21 to 28
 - B. It is a bidirectional bus
 - C. It is 16 bits in length
 - D. Lower address bus lines ($AD_0 - AD_7$) are called “Line number”
9. Which of the following is true about microprocessors?
- A. It has an internal memory
 - B. It has interfacing circuits
 - C. It contains ALU, CU, and registers
 - D. It uses Harvard architecture
10. Which of the following is the correct sequence of operations in a microprocessor?
- A. Opcode fetch, memory read, memory write, I/O read, I/O write
 - B. Opcode fetch, memory write, memory read, I/O read, I/O write
 - C. I/O read, opcode fetch, memory read, memory write, I/O write
 - D. I/O read, opcode fetch, memory write, memory read, I/O write

School of Research and Technology (Faculty of Engineering)

Report of Value Addition Course

Date : 23 May-28 May -2022

Title of Event: *Applications of Microprocessor*

Venue: Electronics & communication Department, SORT, Peoples University.

Name(s) of Chief Guest/ Other Guests / Resource Person/ Speaker(s): *Ms.Deepti Agrawal*

Name Coordinator: **Prof. Manoj Singh Tomar**

Collaborator/Sponsor (if any):

No. of Participants (Faculty member and Student separately): 16

Brief about the event

Computers and microprocessor based systems are an important part of the modern world. Aside from just the common desktop PC, there are a number of other types of specialized computer systems that pop up in many different places. The central component of these computers and computer systems is the microprocessor, or the CPU. The CPU is essentially the brains behind the computer system which is acutely involved in all the computations. This event is going to discuss what microprocessor units do, how they do it, and how they are designed.

Outcome/Impact of event/activity in brief: -

- [1]. Understand the architecture of 8085 and 8086.
- [2]. Impart the knowledge about the instruction set.
- [3]. Develop skill in simple program writing for 8085 & 8086 and applications.

Supporting Documents:

School of Research and Technology (Faculty of Engineering)

Value Addition Course: Electronics Component Testing

Introduction: Today's electronic devices are made up of a wide variety of components. Some, like resistors and capacitors, are simple and passive, while others, such as advanced central processing unit (CPU) chips, are extremely complex and can contain over 20 billion transistors. In this lab, we introduce some simple components and some equipment that can be used to generate and characterize electronic signals in the forms of voltages and currents.

We will use digital and analog multimeter to check the following electrical and electronic components, devices, tools and instruments:

- Cable and Wires
- Switch/Push Buttons
- Fuse
- Capacitors & Inductors
- Resistors & Burnt resistors
- Diodes and LED
- Battery
- Transistors
- Relays

Course Outcomes: At the end of the course, students will be able to,

[8]. Identify various electronic components.

[9]. Know and differentiate various properties of electronic components.

[10]. Demonstrate an appropriate application of electronic components.

Course Content / Syllabus:

To introduce resistors, capacitors and inductors as examples of passive components. To introduce diodes and transistors as simple semiconductor components and an operational amplifier (op-amp) as an example of an integrated circuit (IC).

Reference Books

1. "Electronic Devices and Circuits" by J.B. Gupta
2. "Basic Electronics" by BL Theraja.
3. "Consumer Electronics" by Bali.

Mode of Assessment: Quiz/Test/Other

1. Choose the Passive Component.

- A. Transistor
- B. Resistor
- C. Diode
- D. Integrated circuit (IC)

2. Units of Capacitor.

- A. Farad
- B. Ohms
- C. Hertz
- D. Henry

3. Zener diode is used for?

- A. Filter circuit
- B. Rectifier circuit
- C. Regulator circuit
- D. Impedance circuit

4. LDR (Light Dependent Resistor – Photocell) does varies resistance when sense

- A. Light
- B. Magnet flux
- C. Heat
- D. Tilt

5. When two batteries (1.5V) connected in series, What we will get?

- A. 0.5V
- B. 2.5V
- C. 0 V
- D. 3V

6. Which one is related to the transistor term?

- A. NPN
- B. PNP
- C. GDS
- D. Both A & B.

7. LED has two terminals they are.

- A. Collector, Emitter.
- B. Anode, Cathode.
- C. Drain, Gate.
- D. Cathode, Base.

8. By connecting the Resistors in ———— Form we can Increase the value of resistance.

- A. Series
- B. Parallel
- C. Antiparallel
- D. connecting to Ground

9. A normal battery has two terminals they are

- A. 0 , +Ve
- B. -Ve, +Ve
- C. -Ve, 0
- D. GND, -Ve

10. Terminals of Zener diode are

- A. Anode, Cathode
- B. Input, Output
- C. No Polarities
- D. Unregulated i/p, Regulated o/p

Brief about the event

Different electronics industry standards and safety regulations dictate specific test requirements and performance standards components should meet. In addition, certain standards and industries (e.g., IPC Class 3 products, medical devices, military, and aerospace) have much higher reliability requirements than are enforced on typical PCBs, and there are specific tests that need to be performed during PCB.

Outcome/Impact of event/activity in brief: -

- [1].Identify various electronics components.
- [2].Know and differentiate various properties of electronic components.
- [3].Demonstrate an appropriate application of electronic components.

Value Added Course (Jan-June. 2022)

Dear Students,

This is to inform you all that in upcoming odd semester (Jan-June 2022) Value Added Course will be offered to students presently studying in Diploma 6th Semester by the Institute.

Name of Course: Motor Winding

Name of Resource Person: Mr. Rajesh Sahu

Name of Faculty Coordinator: Mrs. Poonam Jounjare

Dates: 17 Jan 2022 -25 Jan 2022

Registration Link/Form/Other:

Last date of Registration: 14 Jan 2022

HOI/Dean

Value Added Course: Motor Winding

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about basics of winding. It provides fundamental concepts, the necessary knowledge and the basic skills related to Motor Winding.

Course Outcomes: At the end of the training, the candidates will be able to,

[1]. Appreciate the importance of embarking on self-employment and has developed the confidence and personal skills for the same.

[2]. Identify business opportunities in chosen sector / sub-sector and plan and market and sell products / services.

[3]. Run electrical shop of sale & maintenance, rewinding shop & installation of pump.

Course Content / Syllabus:

- Engineering hand tools, as hammers, chisels, punch, clamp Hack saw. Files etc. steel tape. Marking & measuring tools, steel rule. Try square. Scriber.
- Types of bearing, study methods of replacing bearing, preheating. Process of Impregnation Varnishing & backing process.
- Rewinding process, name plate details, cutting of burnt coils and weighting, counting number of slot, pitch (Actual counting), number of pole. Conductor per coil per slot, Pitch (Actual counting) Winding farm Tapping. Fixing Insulation paper in slot after clearing slot. Fixing of coil side in slot, Connection.
- A.C. Single phase motor construction, Working principle and use of different types of single phase motor, Split phase induction motor, Capacitor motor, Capacitor start Capacitor run motor, Capacitor start motor. Shaded pole motor.
- Universal (A.C. Series) motor, Repulsion motor, Direction changing of above motor, A.C. & D.C. Motor, Construction, working, principle and use of Different type of 3- Φ Induction motor. Squirrel cage Induction motor, Slip ring induction motor, Changing direction of rotation.
- Control and starting of 3- Φ motor, Introduction about overload relay, Single phase preventer, Construction and working principle of DOL, Star-delta Rotor resistance starter.

Venue: EE department SORT

Name(s) of Resource Person: Mr. Rajesh Sahu

Name Coordinator(s):Mrs. Poonam Jounjare

Collaborator/Sponsor (if any): Nil

No. of Participants (Faculty member and Student separately): 28 students

Brief about the event (Minimum 50 words)

An [electrical motor](#) is one kind of machine which is used to change the energy from electrical to mechanical. Most of the motors work on the principle of interaction among the electric current as well as the magnetic field within a wire winding. This can generate force in the form of shaft rotation. These motors can be powered with DC or AC sources. The DC sources are batteries whereas the AC sources are [inverters](#), power grids, generators. A generator is mechanically similar to the motor but works in the reverse direction by converting the energy from mechanical to electrical.

Outcome/Impact of event/activity in brief: -

- [1]. Students will develop the ability to rewinding of different types/capacity of motors.
- [2]. Students will develop testing board and able to find faults in testing board.
- [3]. Students will develop the ability to equipments used for motor rewinding.

Value Added Course (July-Dec 2021)

Dear Students,

This is to inform you all that in upcoming even semester (Jan-June 2021) Value Added Course will be offered to students presently studying in 5th Semester by the Institute.

Name of Course: House Wiring

Name of Resource Person: Mr. Amol Barve

Name of Faculty Coordinator: Ms. Anju Mishra

Dates: 17 September 2021 -25 September 2021

Registration Link/Form/Other:

Last date of Registration: 12 September 2021

HOI/Dean

Value Added Course: House Wiring

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about basics of wiring. It provides fundamental concepts, the necessary knowledge and the basic skills related to House Wiring.

Course Outcomes: At the end of the training, the candidates will be able to,

- [1]. Appreciate the importance of embarking on self-employment and has developed the confidence and personal skills for the same.
- [2]. Identify business opportunities in chosen sector / sub-sector and plan and market and sell products / services.
- [3]. Understand the Fundamentals of Electrical equipments, electricity, current, voltage, power and circuits of different capacity motors.

Course Content / Syllabus:

- Concept of basic Electricity, Single phase & three phase circuits Measurement of Electrical quantities like Voltage, Currents, Resistance, Impedance, power factor and energy.
- Fires in electrical Circuits & Precautions Fire Extinguishers, its types and operation General Safety of Tools & equipment.
- Knowledge of tools required for marking, punching, cutting, drilling, filing, stripping, crimping, Socketing and fixing glands & screws etc.
- Knowledge of Measuring tools, wire gauges etc. Classification and Identification of the electrical equipments cables, wires and electrical accessories used in industry.
- Studies of diagram & Symbols used in basic Electrical Circuits, Wiring & installations. Different types of wires & conductors, Load carrying capacity. Knowledge of different electrical wiring- residential, offices, hospitals, go-downs etc. Practice and working on cable lay out and different circuits.

**School of Research and Technology
(Faculty of Engineering)**

Date(From - To): 17 September 2021 -25 September 2021

Title of Event: House Wiring

Venue: EE department SORT

Name(s) of Resource Person: Mr.Amol Barve

Name Coordinator(s):Ms. Anju Mishra

Collaborator/Sponsor (if any): Nil

No. of Participants (Faculty member and Student separately): 25 students

Brief about the event (Minimum 50 words)

House electrical wiring is a process of connecting different accessories for the distribution of electrical energy from the supplier to various appliances and equipment at home like television, lamps, air conditioners, etc. Let us look at the different types of electrical wiring that are used in domestic properties.

Outcome/Impact of event/activity in brief: -

- [1]. Students will develop the ability to measurement of Electrical quantities like Voltage, Currents, Resistance, Impedance, power factor and energy.
- [2]. Students will perform House wiring / Hospital Wiring / Office /Go-down wiring etc.
- [3]. Students will identify the cable sizes and perform cable jointing.

Value Added Course (July-Dec 2021)

Dear Students,

This is to inform you all that in upcoming even semester (July- Dec 2021) Value Added Course will be offered to students presently studying in 6th Semester by the Institute.

Name of Course: PCB Designing

Name of Resource Person: Mr. Mukesh Kumawat

Name of Faculty Coordinator: Mr. Ritesh Chhapre

Dates: 26 August 2021 -02 September 2021

Registration Link/Form/Other:

Last date of Registration: 21 August 2021

HOI/Dean

Value Added Course: PCB Designing

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about basics in PCB designing. It provides helps in connecting the electronics components with pads, tracks and lines incorporated on a laminated copper sheet.

Course Outcomes: At the end of the course,

1. Understand basics of PCB designing.
2. Apply advance techniques, skills and modern tools for designing and fabrication of PCBs.
3. Apply the knowledge and techniques to fabricate Multilayer, SMT and HDI PCB.
4. Understand concepts of Packaging.

Course Content / Syllabus:

Introduction to Printed circuit board: fundamental of electronic components, basic electronic circuits, Basics of printed circuit board designing: Layout planning, general rules and parameters, ground conductor considerations, thermal issues, check and inspection of artwork.

Design rules for PCB: Design rules for Digital circuit PCBs, Analog circuit PCBs, high frequency and fast pulse applications, Power electronic applications, Microwave applications,

Introduction to Electronic design automation(EDA) tools for PCB designing: Brief Introduction of various simulators, SPICE and PSPICE Environment, Selecting the Components Footprints as per design, Making New Footprints, Assigning Footprint to components, Net listing, PCB Layout Designing, Auto routing and manual routing, Assigning specific text (silkscreen) to design, Creating report of design, creating manufacturing data (GERBER) for design.

School of Research and Technology (Faculty of Engineering)

Report of Value Addition Course

Date(From - To): 26 August 2021 -02 September 2021

Title of Event: PCB designing

Venue: EE department SORT

Name(s) of Resource Person: Mr. Mukesh Kumawat

Name Coordinator(s): Mr. Ritesh Chhapre

Collaborator/Sponsor (if any): Nil

No. of Participants (Faculty member and Student separately):20 students

Brief about the event (Minimum 50 words)

A **printed circuit board (PCB)** is a laminated sandwich structure of conductive and insulating layers. PCBs have two complementary functions. The first is to affix [electronic components](#) in designated locations on the outer layers by means of soldering. The second is to provide reliable electrical connections (and also reliable open circuits) between the component's terminals in a controlled manner often referred to as PCB design. Each of the conductive layers is designed with an artwork pattern of [conductors](#) (similar to wires on a flat surface) that provides electrical connections on that conductive layer. Another manufacturing process adds [vias](#), plated-through holes that allow interconnections between layers.

Outcome/Impact of event/activity in brief: -

- [1].Upon completion of the PCB design course, the students should be able to carry out any PCB design
- [2].Students will also be able to create schematics from blue-prints, they will also be able to perform simple simulations.
- [3].Recognize the technologies used in electronic industry through the practical experience gained in the course

Value Added Course (July-Dec 2021)

Dear Students,

This is to inform you all that in upcoming even semester (July-Dec 2021) Value Added Course will be offered to students presently studying in 7th Semester by the Institute.

Name of Course: MATLAB

Name of Resource Person: Mr. Abhishek Tiwari

Name of Faculty Coordinator: Mr. Sarvesh Pratap Singh

Dates: 18 Oct. 2021 – 27 Oct.2021

Registration Link/Form/Other:

Last date of Registration: 10 Oct. 2021

Value Added Course: MATLAB

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about basics in MATLAB. It provides fundamental concepts, the necessary knowledge and the basic skills related to model designing and its calculation.

Course Outcomes: At the end of the course,

- Able to use Matlab for interactive computations.
- Familiar with memory and file management in Matlab.
- Able to generate plots and export this for use in reports and presentations.
- Able to program scripts and functions using the Matlab development environment.

Course Content / Syllabus:

- Building matrices
- Addressing and assigning elements
- Building special matrices
- Matrix operations
- Equation solving

- User defined functions
- Plotting
- Utility Commands
- Relational operators and logical operators
- Control flow (for loops, while loops, if-else-end, switch-case-otherwise-end)
- Precision issues and additional data types (strings, cell arrays, structures)
- Formatted Input/Output

School of Research and Technology (Faculty of Engineering)

Report of Value Addition Course : MATLAB

Date(From - To): 18 Oct. 2021 – 27 Oct.2021

Title of Event: MATLAB

Venue: EE department SORT

Name(s) of Resource Person: Abhishek Tiwari

Name Coordinator(s): Mr. Sarvesh Pratap Singh

Collaborator/Sponsor (if any):Nil

No. of Participants (Faculty member and Student separately):15 students

Brief about the event (Minimum 50 words)

MATLAB is a high-performance language for technical computing. It integrates computation, visualization, and programming in an easy-to-use environment where problems and solutions are expressed in familiar mathematical notation. Typical uses include:

MATLAB is an interactive system whose basic data element is an array that does not require dimensioning. This allows you to solve many technical computing problems, especially those with matrix and vector formulations, in a fraction of the time it would take

Outcome/Impact of event/activity in brief: -

[1]. Students will Able to use Mat lab for interactive computations

[2]. Students will create a Familiar with memory and file management in Mat lab.

[3]. Students will demonstrate skill in industrial automation.

Supporting Documents:

- No. of Participants Attended: xx (Attach Attendance Sheet & List of Enroll Students)
- No. of Participants Completed: xx (Attach Result Sheet)
- Copy of Certificate
- Photograph / Video Recording.
- Press Release. (If any)
- Fund utilization in case of external sponsorship. (If any)
- Letter of Collaboration/ sponsorship. (If any)
- Brochure (If any)

Report of Value Added Course: MATLAB

- **Dates: 18 Oct. 2021 – 27 Oct.2021**
- **No. of Participants Attended: 15**
- **No. of Participants Completed: 15**
- **Mode of Assessment: Quiz**
- **Pictures of Events**
- **Sample Certificate**

Notification

Value Added Course (Jan-June 2022)

Dear Students,

This is to inform you all that in upcoming even semester (Jan-June 2022) Value Added Course will be offered to students presently studying in 8th Semester by the Institute.

Name of Course: PLC SCADA

Name of Resource Person: Mr. Ravindra Sharma

Name of Faculty Coordinator: Mr. Manish Kethoriya

Dates: 20 March 2022 -28 March 2022

Registration Link/Form/Other:

Last date of Registration: 11 May 2022

HOI/Dean

Value Added Course: Data Analytics Tool

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about basics in PLC SCADA. It provides fundamental concepts, the necessary knowledge and the basic skills related to Power Flow Analysis.

Course Outcomes: At the end of the course,

- [1]. Students will develop the ability to understand power flow analysis.
- [2]. Students will execute load flow analyses with models of power system.
- [3]. Students will demonstrate skill in industrial automation.

Course Content / Syllabus:

- Load /and /or/out / and Read / Write
- Compare / Add / Sub /And /Or – Blocks
- Edge / trailing edge instructions
- MOVE block application, Timer and Counter Blocks programming
- Advanced instructions,
- File handling and Comment functions
- Master control /set /reset function
- SCADA system application(Oil GAS / factory /Metro/ Solar Power Plant /Steel Plant)
- Calculation SCADA tag.
- Selection of Software basis of SCADA Tag.
- Creating Database of Tags

School of Research and Technology (Faculty of Engineering)

Report of Value Addition Course

Date(From - To): 20 March 2022 -28 March 2022

Title of Event: PLC SCADA

Venue: EE department SORT

Name(s) of Resource Person: Mr. Ravindra Sharma

Name Coordinator(s): Mr. Manish Kethoriya

Collaborator/Sponsor (if any): Nil

No. of Participants (Faculty member and Student separately): 20 students

Brief about the event (Minimum 50 words)

The first programmable logic controller (PLC) project was created in 1968, by Bedford Associates, MA, USA, who had initiated the development of an electronic device called the “Modular Digital Controller” for controlling the operations in an automobile assembly line in General Motors (GM). This development proved to be successful and dramatically replaced the hard-wired electrical relay systems with an electronic controller. This controller has made a significant contribution to the automation of factory assembly lines. Most of the relays and timers were built into a single controller. As of today, the programmable logic controllers deliver a wide range of functionality, including basic relay control, motion control, process control, and complex networking. They are also used in distributed control systems (DCSs).

Outcome/Impact of event/activity in brief: -

- [1]. Students will develop the generic architecture and constituent components of a Programmable Logic Controller.
- [2]. Students will create a software program using modern engineering tools and technique for PLC and SCADA.
- [3]. Students will demonstrate skill in industrial automation.

**School of Research and Technology
(Faculty of Engineering)**

Value Addition Course: Industry 4.0

Introduction: This course is offered by SORT, targeting students who wish to acquire knowledge about Industry 4.0. It provides fundamental Concepts, the necessary knowledge and the basic skills related to smart manufacturing system.

Course Outcomes: At the end of the course, students will be able to,

- [1]. Learn the outline of various systems used in a manufacturing plant and their role in an Industry 4.0 world.
- [2]. It's a fusion of advances in artificial intelligence (AI), robotics, the Internet of Things (IoT), 3D printing, genetic engineering, quantum computing, and other technologies.
- [3]. Appreciate the smartness in Smart Factories, Smart cities, smart products and smart services.

Course Content / Syllabus:

S. No	Content	Total Hours
1	Introduction to Industry 4.0: Introduction, Core idea of Industry 4.0, Origin concept of industry 4.0, Industry 4.0 production system, current state of industry 4.0, Technologies, How is India preparing for Industry 4.0.	6
2	A Conceptual Framework for Industry 4.0: Introduction, Main Concepts and Components of Industry 4.0, State of Art, Supportive Technologies, Proposed Framework for Industry 4.0.	6
3	Technology Roadmap for Industry 4.0: Introduction, Proposed Framework for Technology Roadmap, Strategy Phase, Strategy Phase, New Product and Process Development Phase, The Role of Augmented Reality (AR) in the Age of Industry 4.0, Industrial Applications of AR.	6

Mode of Assessment: Quiz/Test

Date (From - To): 28/3/2022 to 05/4/2022

Title of Event: Industry 4.0

Venue: Mechanical Workshop, SORT, People's University

Name(s) of Chief Guest/ Other Guests / Resource Person/ Speaker(s): (If any)

Name Coordinator(s): Rajesh Kumar Soni

Collaborator/Sponsor (if any):

No. of Participants (Faculty member and Student separately):27

Brief about the event (Minimum 50 words)

Students was excited to enhance their knowledge about the Industry 4.0 as we know that it is the digital transformation of manufacturing/production and related industries and value creation processes. Industry 4.0 is used interchangeably with the fourth industrial revolution

Outcome/Impact of event/activity in brief: -

Students got the knowledge about digital transformation using an integrated approach, applying AI, hybrid cloud and automation to achieve new levels of agility, efficiency, quality and sustainability.

School of Research and Technology (Faculty of Engineering)

Theory of Non Destructive Testing

Introduction: This course is offered by SORT, targeting students who wish to gain experience with and understanding of the types, advantages and applications of various NDT methods. After completing the course successfully the student would be able to choose the best NDT method for a given part.

Course Outcomes: At the end of the course, students will be able to,

- [1]. Learn the basics and necessity of NDT in engineering.
- [2]. The different methods of performing NDT.
- [3]. Students would be able to perform NDTs as per the requirement and can select a material for any particular task.

Course Content / Syllabus:

S. No	Content	Total Hours
1	Introduction to NDT: Visual Optical methods, Dye penetrate testing, Basic principle, Types of dye and methods of application, Developer application and Inspection.	6
2	Ultrasonic testing: Basics of ultrasonic waves, Pulse and beam shapes, Ultrasonic transducers. Test method, Distance and Area calibration, Weld Inspection by UT. Radiography: X-rays and their properties, X-ray generation, X-ray absorption and atomic scattering	6
3	Image formation, Image quality, Digital Radiography, Image interpretation, Radiation Shielding. Comparison and selection of NDT methods, Concluding remarks.	6

Mode of Assessment: Quiz/Test

School of Research and Technology (Faculty of Engineering)

Report of Value Addition Course

Date (From - To): 24 August 2021 to 03 September 2021

Title of Event: Theory of Non Destructive Testing

Venue: Mechanical Workshop and Mechanical Seminar Hall, SORT, People's University.

Name(s) of Chief Guest/ Other Guests / Resource Person/ Speaker(s): (If any)

Name Coordinator(s): Pushkar Dwivedi

Collaborator/Sponsor (if any):

No. of Participants (Faculty member and Student separately):23

Brief about the event (Minimum 50 words)

The seminar on Theory of Non destructive Testing was organized for students of Mechanical and Civil branch. Students showed great response towards learning of different testing methods and their application in industries. This knowledge would be a USP for students while applying for a quality assurance engineer.

Outcome/Impact of event/activity in brief: -

Students got the knowledge of necessity of testing of materials. The design of the course was highlighting on the various methods of testing materials and therefore selection of material for a particular task.

VALUE ADDED COURSE

PEOPLE'S DENTAL ACADEMY

**DISASTER MANAGEMENT TRAINING
PROGRAMME
Course Brochure**

About People's Dental Academy

People's Dental Academy is a premier institute, centre of excellence and learning in the field of disaster management. It is a resource institution for human resource development, training, capacity building, applied research, implementation and dissemination of information and theoretical knowledge to case study based practitioners approach for holistic disaster management. The institute works towards the effective application of disaster risk mitigation and management as well as in the region by providing technical assistance for capacity building and developing disaster management systems and institutional framework in the sector. Some of the key areas in which the institute is involved are:

- ✚ **Training:** Training programs, training workshops, and training of trainers for officials at the national, state and district levels to prepare them to tackle natural disasters.

- ✚ **Research:** Issues, concerns and lacunae in management of disasters, Lessons learnt from past disasters and best practices in Disaster Management.

- ✚ **Documentation:** Disaster events, Impact of disasters, Situational analysis of relief and response measures, creation of database through primary surveys and secondary sources, preparation of brochures, pamphlets, posters, films etc.

ABOUT THE COURSE

LOGISTICS

Programme Venue

The program will be organized at People's Dental Academy. The training program will start on 1st Dec 2021

Target Group:

This training program invites applications from interns and faculty members.

Course Fee:

The Registration/nomination is free for the participants.

Course duration:

The program will be conducted for 6 months (30 hrs)

ACADEMIC

Objectives: The key objectives are as follows:

- ◆ To provide the participants about the concepts of disaster management and an overview on approaches & pathways of DRR.
- ◆ To enhance understanding concerning the nature, extent of the threats and the value of counter measures to combat the adverse impact of disasters.
- ◆ To give an overview on various structural and non-structural measures for preparedness.
- ◆ To develop administrative capabilities to plan and implement disaster resilience for a safe national sustainable development w.r.t. DRR

Course Contents: The contents of the course would cover the following aspects, to achieve the objectives:

- ◆ Basic Concepts of Disaster Management and Disaster Risk Reduction in Management in changing scenario of climate and environment in India
- ◆ Role of Strategic preparedness tools in management of disaster and its National Guidelines
- ◆ Health aspects related to disasters and managing it for risk reduction.
- ◆ Mitigation measures in India - Structural and Non- structural aspects of flood
- ◆ Search & Rescue operation & Incident Response System
- ◆ Disaster Resilient structures for its Mitigation
- ◆ Experience sharing & Challenges ahead based on initiatives taken by the stakeholders & lessons learnt on disaster management

Methodology

Power point presentations, discussions, exercises with question/ answer, live demonstrations

Attendance & Certificate

Marking attendance Forenoon and Afternoon is compulsory for certification. A certificate will be awarded to each participant on the successful completion of the program.

VALUE ADDED COURSE

PEOPLE' S DENTAL ACADEMY

**ENVIRONMENTAL SCIENCE TRAINING
PROGRAMME
Course Brochure**

This course provides an overview of the key concepts and principles in environmental management, areas of global and national environmental concern, and strategies and tools for effective environmental management. Attempt to understand the genesis of environmental problems; the concerns that lead to various international and national initiatives to tackle them have been made in this course. Various tools, which can be used to address environmental problems and the role that the professionals can play in managing environment in their respective areas would be discussed.

1. Principles of Environmental Management.
2. Principles of Ecology, Environment & Environmental Management.
3. Municipal Solid Waste Management – Principle and case studies
4. Policies and Legal Aspect of Environmental Management.
5. Overview of Environmental Impact Assessment (EIA); Preparation and Review of Environmental Impact Assessment Report.
6. Environmental Audit.
7. Life Cycle Assessment as EM Tool.
8. Environmental Management Systems Standards: ISO 14000 (EMS).
9. Environmental Design.
10. Environmental Economics.
11. Application of Geoinformatics (Geographic Information System (GIS) and Remote Sensing) in Environmental Management.
12. Carrying capacity assessment

Each of the self-learning format versions of the course complies with high quality standards and includes a tutor's guide. A comprehensive list of references (and suggested reading) is provided at the end of each course to enable the learners to pursue relevant further reading.

The methodology involved thorough course packaging (i.e., development, design and materials production).

Course Schedule

Assignments: Assignment submission can be done through email:??/, within the specified date.

Feedback: Participant who would like to have the feedback from the tutor can pose their queries in the discussion forum or through chat sessions or through e-mail or by post.

Tutors /Resource Persons: The tutors will act as catalysts, emphasized on participatory style of learning and providing ample scope for discussions, and the resource persons facilitate the learning process. Successful realization of Competence Based Education heavily depends on the teachers' contribution to the curriculum reform. Teachers involved here have wide scope from the lesson level to the level of curriculum development, and adapt new role of coach of the students' learning

processes. Faculties and course coordinators are from ????

Venue: Lecture Hall 1, People's Dental Academy

Entry Requirements: *Participants are expected to take part in all activities that form part of course in addition the participants should work on individual projects. During course, participants should compulsorily attend to interactive chat session, which is considered while grading.* Participants should actively participate in the course for best results. A certificate along with grades will be given to all the successful participants.

. Target Group:

This training programmes invites applications from interns and faculty members.

Course Fee:

The Registration/nomination is free for the participants.

Course duration:

The programme will be conducted for 6 months (30 hrs)

Date:01-04-2021

SCHEDULE OF ENVIRONMENTAL SCIENCES

	NAME OF THE TOPIC
1.	INTRODUCTION TO ENVIRONMENT SCIENCE
2.	ENVIRONMENTAL POLLUTION
3.	AIR POLLUTION
4.	WATER POLLUTION
5.	SOIL POLLUTION
6.	MARINE POLLUTION
7.	NOISE POLLUTION, THERMAL POLLUTION, NUCLEAR HAZARDS
8.	SOLID WASTE MANAGEMENT
9.	DISASTER MANAGEMENT
10.	NATURAL RESOURCES
11.	FOREST RESOURCES, TIMBER EXTRACTION, DEFORESTATION
12.	WATER RESOURCES
13.	STRUCTURE AND FUNCTION OF ECOSYSTEM
14.	ECOSYSTEM PRODUCER AND CONSUMER, DECOMPOSER
15.	FOREST ECOSYSTEM
16.	GRASSLAND ECOSYSTEM
17.	DESERT ECOSYSTEM
18.	AQUATIC ECOSYSTEM
19.	BIODIVERSITY AND ITS CONSERVATION
20.	BIODIVERSITY-GLOBAL, NATIONAL, LOCAL LEVEL
21.	ENDANGERED AND ENDEMIC SPECIES-INDIA
22.	SOCIAL ISSUES AND ENVIRONMENT
23.	ENVIRONMENT ETHICS
24.	WASTELAND RECLAMATION
25.	ENVIRONMENTAL PROTECTION ACT
26.	HUMAN POPULATION AND THE ENVIRONMENT
27.	ENVIRONMENT AND HUMAN HEALTH
28.	HUMAN RIGHTS
29.	VALUE EDUCATION
30.	HIV/AIDS
31.	ROLE OF INFORMATION TECHNO.

 Peoples Dental Academy
 Bhanpur, Bhopal (MP)

PEOPLE'S DENTAL ACADEMY

DEPARTMENT OF FORENSIC ODONTOLOGY, ORAL PATHOLOGY & MICROBIOLOGY

People's University aims to create better prospects for Dental professionals pertaining to job and career opportunities in dental forensics. The prime objective of this course is to train candidates so as to ensure higher competence in both general and special areas of interest and, to prepare him/her for a career in this specialty. This course will empower them to aid in medico-legal investigation, in both civil and criminal cases."

Dr. Ashith B. Acharya is an Australia-trained forensic odontologist having completed his Bachelor's degree in dentistry in 1999 and his post-graduation in 2001. He heads India's first exclusive department of forensic odontology in SDM College of Dental Sciences, Dharwad, Karnataka. With over 18 years' experience, he teaches undergraduate and postgraduate students, and serves as a consultant in forensic, dental, anthropological, and archeological cases referred by the police, government agencies and forensic medical experts from across India. He is a founder-member of the Indian Association of Forensic Odontology and is currently serving as its Honorable Secretary.

He is an editorial board member/reviewer in several National and International dental and forensic

journals; he is also a member of the International Organization for Forensic Odonto-Stomatology's Age Estimation Workgroup and Bite Mark Work group. He has published 42 journal articles, 33 of which have appeared in top international forensic and dental journals; he has also contributed to government reports, and chapters on forensic odontology to eminent textbooks such as Shafer's Textbook of Oral Pathology.

Dr. Ashith Acharya

FELLOWSHIP IN FORENSIC ODONTOLOGY (FFO)

Duration: 1 year, Part-time (Three modules) including Examination :
Candidate intake seats - 30 only based on first come first basis.
Session 2022

forensicpda@gmail.com
peoplesdentalacademy@gmail.com

0755-4005356

Administrative Office: Room No.103,
First floor, Dept. of Oral Pathology &
Microbiology People's Dental
Academy, Bhopal, M P

www.peoplesuniversity.edu.in

Forensic dentistry or Odontology is the application of dental knowledge to those criminal and civil laws that are enforced by police agencies in a criminal justice system. Forensic Odontologists are trained specialists, who assist investigative agencies in identifying recovered human remains after any disaster or crime. Forensic dentists may be asked to assist in determining age, race, occupation, previous dental history and socio- economic status of unidentified human beings

- People's Dental Academy/ People's University, Estd. 2005 (Recognized by DCI) for Undergraduate & Post graduate Courses.
- State of art infrastructure & campus with accreditations from NAAC, DSIR, ISO etc.

EXPERT GUEST FACULTY

Dr. Ashith B. Acharya
B.D.S, G.D.F.O (Australia) Forensic Odontologist at India's
First Department of Forensic Odontology SDM College of
Dental Sciences, Dharwad, Karnataka

- First of its kind in Central India.
- Resource Faculty: Forensic Odontologist of International Fame; Govt. Expert in cases of national importance, like the 'Nirbhaya' Case, and many more.
- Renowned Forensic Expert of India as a Forensic Mentor and Faculty with experience of thousands of Govt. cases.
- 17+ years teaching Experienced faculty for BDS, MDS, Ph.D. & various patents and copyrights to credit.
- Dedicated Faculty convenors & Team for Programme Co-ordination

Programme Director

Dr. Anish Gupta

Forensic Fellowship Programme 2020-21 – Dr. Ashith B. Acharya	
Online Sessions	
<i>Sessions (each up to 3 hours)</i>	<i>Topics</i>
Session 1 (20 Nov 2020)	Lecture 1 on Introduction, History and Overview of Forensic Odontology Lecture 2 on Dental Age Estimation
Session 2 (21 Nov 2020)	Practical session covering age estimation from Demirjian's method on OPGs and case-based learning on the same method, including discussion on results & report writing procedures
Session 3 (27 Nov 2020)	Practical session on age estimation from pulp-to-tooth area ratio method on periapical radiographs and case-based learning on the same method, including discussion on results & report writing procedures
Session 4 (28 Nov 2020)	Reserve day for completion of age estimation exercises, as required
Session 5 (29 Apr 2021)	Lecture 3 on Bite Mark Investigation Practical session on 2D digital analysis and comparison of bite mark to suspect's teeth on mock/demo case
Session 6 (30 Apr 2021)	Practical session on 2D digital analysis and comparison of bite mark to suspect's teeth on mock/demo case continues; once completed, case-based learning commences on a pre-solved case of human bite marks, with discussion on results & report writing procedures
Session 7 (01 May 2021)	Case-based learning (on bite mark investigation) continues
Session 8 (02 May 2021)	Reserve day for completion of bite mark exercises, as required
Classroom Sessions	
Day 1 (approx. 6 hours) (22 Oct 2021)	Lecture 4 on Sex Assessment from Teeth & Skull Bones and Population Identification from the Dentition, and related practical exercises
Day 2 (approx. 6 hours) (23 Oct 2021)	Revision on age estimation and bite mark investigation (theory and practical)
Exam & Graduation Ceremony	Assessment including MCQ test (50 marks) and case-based analysis (50 marks)

PEOPLE'S UNIVERSITY

MODULES FOR FELLOWSHIP IN FORENSIC ODONTOLOGY

<i>Forensic Fellowship Programme Session 2022 –Dr.Ashith B. Acharya</i>	
<i>Online Sessions</i>	
<i>Sessions(each up to 3 hours)</i>	<i>Topics</i>
Module 1-Session 1 (21 April 2022) Thursday	Lecture 1 on Introduction, History and Overview of Forensic Odontology Lecture 2 on Dental Age Estimation
Module 1-Session 2 (22 April 2022) Friday	Practical session covering age estimation from Demirjian's method on OPGs and case-based learning on the same method, including discussion on results & report writing procedures
Module 1-Session 3 (28 April 2022) Thursday	Practical session on age estimation from pulp-to-tooth area ratio method on periapical radiographs and case-based learning on the same method, including discussion on results & report writing procedures
Module 1-Session 4 (29 April 2022) Friday	Reserve day for completion of age estimation exercises, as required
Module 2-Session 1 (22 September 2022) Thursday	Lecture 3 on Bite Mark Investigation Practical session on 2D digital analysis and comparison of bite mark to suspect's teeth on mock/demo case
Module 2-Session 2 (23 September 2022) Friday	Practical session on 2D digital analysis and comparison of bite mark to suspect's teeth on mock/demo case continues; once completed, case-based learning commences on a pre-solved case of human bite marks, with discussion on results & report writing procedures
Module 2-Session 3 (29 September 2022) Thursday	Case-based learning (on bite mark investigation) continues
Module 2-Session 4 (30 September 2022) Friday	Reserve day for completion of bite mark exercises, as required

PEOPLE'S UNIVERSITY

MODULES FOR FELLOWSHIP IN FORENSIC ODONTOLOGY

<i>Classroom/Offline Sessions (Dates to be announced)(Tentatively February 2023)</i>	
Module 3-Day 1 (approx. 6 hrs)	Lecture 4 on Sex Assessment from Teeth & Skull Bones and Population Identification from the Dentition, and related practical exercises
Module 3-Day 2 (approx. 6 hrs)	Revision on age estimation and bite mark investigation (theory and practical)
Module 3-Day 3 (approx. 4 hrs)	Revision continues followed by assessment (may comprise of MCQ test and/or case-based analysis (50 marks)

- Each participant will be provided reading Material.
- Assignments may be given and the participant will be assessed based on it.
- At the end of the program, there will be an assessment.
- After successful completion of the criteria mentioned above, the participant will be awarded Fellowship.

Value Added Course: Prevention of Chemical Hazards

Syllabus

Module I

Introduction to Safety Concepts and Practice- To study & understanding of Safety and General precautions, To study basic knowledge of Safety procedures (fire fighting, first aid) within the organization, To study various types of PPEs and their usage in industry. ,To understand risks/hazards associated with each occupation in the organization, To study personal hygiene and importance of safe and clean working environment.

Module – II

Chemical hazards and Their Control- Classification of Chemical Hazards and their control, Chemicals as a cause of occupational diseases and poisoning, Prevention of diseases due to chemical effect, Education to prevent toxic exposures, Safety aspects in plant layout, Ventilation and lighting

Module – III

Introduction to Chemical Safety Guidelines- Health and safety management duties in relation to hazardous chemicals, Hazardous chemicals generated or manufactured in the workplace, Management of overexposure to chemicals

Module – IV

Hazard Identification and Risk Assessment- Explain hazard identification methods, Hazard identification methods : a) Hazard Operability study (HAZOP), b) Hazard Analysis (HAZAN)

Time Division for Module:

Modules	Allotted hours of teaching
Module I	5 hours
Module II	4 hours
Module III	4 hours
Module IV	5 hours
Total	18 Hours

Value added course

Value Added Course: Prevention of Chemical Hazards

Course Description: This course aims to introduce safe use of chemicals at workplaces, present classification systems for the labeling and transport of dangerous goods, allow the reading and use of chemical safety cards, give a basic overview of toxicology and disseminate information on selected, widely used, hazardous substances. Chemicals are widely used throughout society, with both positive and negative effects on health, well-being, socio-economic aspects and the environment. Significant but still insufficient progress has been made in international chemicals management and regulations. Serious incidents still occur and there are still negative impacts on both human health and the environment, and it is agreed that the sound management of chemicals at the workplace is directly linked to protection of the environment.

These 18 hours lecture course involves guidelines for prevention of chemical hazards and safety precautions during handling of hazardous chemicals and other substances.

1. Identify and classify a hazardous chemical's class and type.
2. Demonstrate ways to assess and manage the hazards associated with chemicals.
3. Re-label any new transfer bottles.
4. Implement the proper procedures for responding to spills, emergencies, or injuries.
5. Maintain an accurate chemical inventory.

Learning goals and Outcomes:

- Help students develop an understanding of the principle of chemical safety
- Enable students to apply these concepts when working in a laboratory
- Foster a culture of safety in which students apply the RAMP concept to their laboratory experiences
- Encourage the scientific community to keep safety a high priority

Course Duration: 18 Hours

Course Schedule: 2 Hours/week

Course Beneficiary: Undergraduate Graduate Students (Bachelor of Pharmacy)

Course Outline: Syllabus

School of Pharmacy & Research, People's University
Value Added courses Examination and Evaluation

The value added course shall carry 50 marks with Internal Assessment and End Semester assessment.

Award list Format:

Internal Assessment (IA):

- The IA will be done by (Multiple Choice question) MCQ.
- The duration of assessment is one hour each.
- IA, the assessment will be done by the Course Teacher

Internal Assessment (IA)	MCQ	Attendance	Total
	10	05	15

End Semester Examination: will be evaluated by MCQ, assignment and PPT that would be suitable to the course. The break-up of marks will be as follows:

End Semester Examination	MCQ	PPT/Viva Voce	Report	Total
	10	10	15	35

The End Semester Examination will be of one hour's duration and will cover the entire syllabus of the course.

Assessment of Value-added Courses:

Assessment of VACs shall be internal. IA Tests will be conducted during the semester by the individual course Teacher offering VAC and evaluated by the course Teacher.

Passing Criteria and Grading System: The passing criteria for value added courses shall be 50% of the marks obtained in both internal and end semester examination Evaluation of the performance of the student will be rated as shown in the Table.

Grade	Description of Performance	Marks %
A+	Out standing	90 and above
A	Excellent	80-89
B	Very good	70-79
C	Good	60-69
D	Satisfactory	55-59
E	Pass	50-54
F	Fail	Less than 50

Awarding Certificate: Candidates can get a certificate after passing of above said examination

**Value Added Course Bio-Medical Waste
Management**

SCHOOL OF PHARMACY & RESEARCH

Value Added Course Bio-Medical Waste Management

Course Description:

Biomedical waste is defined as any type of waste created during a diagnostic process, the treatment of a condition or disease, or immunizations of humans or animals. It also includes any research activities or processes that involve biological testing. In essence, it's any type of waste that contains any type of the material that may be contaminated with potentially infectious properties. Infectious properties can be found in syringes delivering medications or chemotherapy. They can be found in bedding, bandages, or clothing contaminated with blood or bodily fluids of a person infected with a communicable disease.

Objectives

- The students are able to understand the preventive transmission of disease from patient to patient, from patient to health worker and vice versa.
- To ensure the protection of the environment through effective waste management measures.
- To understand Waste minimisation, Waste segregation and labelling, Waste handling and disposal.

Outcomes:

- The students able to Identifying biomedical waste.
- To prevent injury to the health care worker and workers and workers in support services, while handling biomedical waste.
- Students will sensitize how biomedical waste impacts the environment.
- Will understand better delivering healthcare safety and saving the environment.

Course Duration: 18Hours

Course Schedule: 1 Hours/week

Course Beneficiary: Under Graduate Students (Bachelor of Pharmacy VI Semester)

Course Outline:Syllabus

SCHOOL OF PHARMACY & RESEARCH

Syllabus

Module 1: Introduction

- Types of wastes, Major and minor sources of biomedical waste.
- Categories and classification of biomedical waste, Hazard of biomedical waste, Need for disposal of biomedical waste.
- Bio-Medical Waste Management Rules, 2016, Definitions.
- Major differences between biomedical waste rules 1998 and 2016.
- Salient features of BMW Management Rule, 2016.

Module 2: Authorities and the Corresponding Duties

- Duties of the Occupier, Duties of the operator, Duties of authorities
- Prescribed authority, Procedure for authorisation, Advisory Committee
- Monitoring of implementation of the rules in health care-facilities,
- Annual report, Maintenance of records, Accident reporting
- Site for common bio-medical waste treatment and disposal facility
- Liability of the occupier, Operator of a facility.

Module 3: Waste management according to Schedule I & II

- Waste minimisation, Waste segregation and labelling, Waste handling and disposal (According to Schedule I)
- Standards for treatment and disposal of bio-medical wastes (Schedule-II) , Standards for
- Incineration,
- Disposal by plasma pyrolysis or gasification.
- Air emission and air pollution control measures.

Module 4: Waste management according to Schedule II continued

- Autoclaving of bio-medical waste.
- Microwaving.
- Deep burial.
- Efficacy of chemical disinfection.
- Dry heat sterilisation.
- Liquid waste.

SCHOOL OF PHARMACY & RESEARCH

Time Division for Module:

Modules	Allotted hours of teaching
Module 1	6 hours
Module 2	5 hours
Module 3	4 hours
Module 4	3 hours

Evaluation of Student Performance:

Course assessment involves presentation skills for each lecture, followed by assignments for each study module.

Value Added Course: Disaster Management (A Value Added Course)

Disaster Management (A Value Added Course)

Course Details:

The course will be from 50 lectures of about 45 minutes each-following the UGC pattern. It will be taught in a single semester. It may be located in any if the 3 years of graduation based o availability of teachers and structure of the broader courses on offer in each University/ College.

The course may be taught by a teacher of any discipline as Disaster Management (DM) is multi disciplinary and draws its knowledge base form a range of disciplines.

Learner Objectives:

1. To provide students an exposure to disaster, their significance and types.
2. To ensure that students begin to understand the relationship between vulnerability, disasters, disaster prevention and risk reduction.
3. To gain a preliminary understanding of approaches of Disaster Risk Reduction(DRR)
4. To enhance awareness of institutional processes in the country
5. To develop rudimentary ability to respond to their surroundings with potential disaster response in areas where they live with due sensitivity.

S.No.	MODULES	TOPIC	No. of Lectures
1	Module/Unit-I	Introduction To Disaster	06
2	Module/Unit-II	Disasters Classification, Course, Impact	12
3	Module/Unit-III	Approaches To Disaster Risk Reduction	10
4	Module/Unit-IV	Inter-Relationship Between Disaster & Development	06
5	Module/Unit-V	Disaster Risk Management In India	08
6	Module/Unit-VI	Visit Of Disaster Management Institute, Bhopal (Field Work)	08

Units I	
Introduction to disasters:	06
Concepts and definitions (Disaster, Hazard, Vulnerability, Resilience, Risks)	
Units II	
Disasters:	12
(Classification Causes, Impacts including social, economic, political, environmental, health, psychosocial, etc.)	
Differential impacts in terms of caste, class, gender, age, location, disability Global trends in disasters urban disasters, pandemics, complex emergencies, Climate change.	
Units III	
Approaches to Disaster Risk reduction:	10
Disaster cycle its analysis, Phases , Culture of safety, prevention, mitigation and preparedness, community based DRR, Structural – nonstructural measures, roles and responsibilities of community, Panchayati Raj Institutions/ Urban Local Bodies (PRIs/ULBs), States, Centre and other stake –holders.	
Units IV	
Inter-relationship between Disasters and Development:	06
Factors affecting Vulnerabilities, differential impacts, impact of Development projects such as dams, embankments, changes in land use etc. Climate Change Adaptation Relevance of indigenous knowledge , appropriate technology and local resources.	
Units V.	
Disaster Risk Management in India:	08
Hazard and vulnerability profile of India, Components of Disaster Relief: Water, Food, Sanitation, Shelter, Health, and Waste Management. Institutional arrangements (Mitigation, Response and Preparedness, DM Act and Policy, Other related policies, plans, programmes and legislation)	
Units VI	
Project Work: (Field Work Case Studies)	08
The project/field work is meant for students to understand vulnerabilities and to work on reducing disaster risks and to build a culture of safety, Projects must be conceived creatively based on the geographic location and hazard A few ideas or suggestions are discussed below. Several governmental initiatives require Urban Local Bodies (ULBs) and Panchyati Raj Institutions (PRIs) to be proactive in preparing DM Plans and community based disaster preparedness plans. Information on these would be available with the district Collector or Municipal Corporations. The scope for students to collaborate on these initiatives is immense. Teachers may explore possibilities. Teachers could ask students to explore and map Disaster prone areas, vulnerable sites, vulnerability of people (specific groups) and resources. The students along with teachers could work on ways of addressing these vulnerabilities, preparing plans in consultation with local administration or NGOs. Students could conduct nock drills in schools, college or hospitals. They could also work on school safety, safety of college buildings, training in firs aid.	

Other examples could be identifying how a large dam road/ highway or an embankment or the location of an industry affects local environment and resources or how displacement of large sections of people creates severe vulnerabilities may be mapped by student project work.

Teaching Resources:

A range of Films- documentaries and feature films related to disasters and their impacts and on vulnerabilities of people are available which a teacher could choose with care and screen. This could form a basis for classroom discussion.

Value Added courses Examination and Evaluation

The value added course shall carry 50 marks with Internal Assessment and End Semester assessment.

Award list Format:

Internal Assessment (IA):

- The IA will be done by (Multiple Choice question) MCQ.
- The duration of assessment is one hour each.
- IA, the assessment will be done by the Course Teacher

Internal Assessment (IA)	MCQ	Attendance	Total
	10	05	15

End Semester Examination: will be evaluated by MCQ, assignment and PPT that would be suitable to the course. The break-up of marks will be as follows:

End Semester Examination	MCQ	PPT/Viva Voce	Report	Total
	10	10	15	35

The End Semester Examination will be of one hour's duration and will cover the entire syllabus of the course.

Assessment of Value-added Courses:

Assessment of VACs shall be internal. IA Tests will be conducted during the semester by the individual course Teacher offering VAC and evaluated by the course Teacher.

Passing Criteria and Grading System: The passing criteria for value added courses shall be 50% of the marks obtained in both internal and end semester examination Evaluation of the performance of the student will be rated as shown in the Table.

Grade	Description of Performance	Marks %
A+	Out standing	90 and above
A	Excellent	80-89
B	Very good	70-79
C	Good	60-69
D	Satisfactory	55-59
E	Pass	50-54
F	Fail	Less than 50

Awarding Certificate: Candidates can get a certificate after passing of above said examination

Value Added Course: "Pedagogy on Campus Recruitment"

SCHOOL OF PHARMACY AND RESEARCH
People's University, Bhopal, M.P.
Value added course
“PEDAGOGY ON CAMPUS RECRUITMENT”

1. Course Description

Pedagogy on Campus Recruitment is specifically designed for undergoing graduation students. In order to make them professionally strong to enable & do well in campus drive. This class room Training Program accelerates the fitment and potential to be hired by top employers in the market. Providing hands on industry experienced professionals, providing guidance and coaching to get ready for campus selection rounds. Program is designed with intensive classroom training for undergraduates to make them corporate ready.

The following are the stages that students normally go through as a part of Campus Recruitment:

- a. Aptitude Test
- b. Group Discussion
- c. Interviews

2. Objectives

- a. The major objective of campus recruitment is to identify the talented and qualified professionals before they complete their education.
- b. This process reduces the time for an industry to pick the candidates according to their need. It is a cumbersome activity and hence majority of the companies find it difficult to trace the right talent.
- c. Many students do not understand the importance of placement training that is being imparted, whether it is aptitude training or soft skills. They show the least interest in this due to various factors viz. projects, assignments or more activities loaded by the it.
- d. It is the responsibility of the companies training on placement to make the students equipped on all aspects of career development along with creating a very good impact in them which makes them feel every minute they spend in the placement training session is worth being there and will help them in getting placed in their dream companies.

Objectives from different perspectives

For students: To help students for their better future by providing them technical & behavior training and to get placed in reputed companies.

For colleges: To help colleges by giving them maximum and good companies. Campus recruitment will not only benefit from higher placement rates but will also be the leader in adopting technology enabled learning solutions in the college.

For companies: Its aim is to give maximum benefits to companies by giving talented and hardworking employees who can work effectively and efficiently and also help them to fulfill their company mission

1. Outcome

- ❖ To understand the campus recruitment process.
- ❖ To assess the importance of campus recruitment from student's perspective.
- ❖ Basics of aptitude test and how to make problem solving ability efficiently.
- ❖ To make the students aware of the different regulatory bodies and their functioning
- ❖ Sensitization to revise basics of anatomy, pharmacology and possible technical queries of industrial aspect
- ❖ How to prepare for certain personality traits like confidence, communicating with the team, participation etc.

3. Brief about course:

This course will develop the personality and confidence of the students in order to clear an interview and can enter the pharmaceutical corporate world. By getting into this course the students will be getting the training of computer literacy, Resume Writing, communication skills, personality development and pharmaceutical module.

Module- I Resume Writing:

To demonstrate students that how to write resume and mention the important credentials depicted in resume in an appropriate way.

Module- II Communication, Aptitude test, Analytical and Logical Reasoning

Basics of aptitude test and how to make problem solving ability efficiently. Sensitize for Preparation of Verbal ability that checks students reading ability and level of Grammar. How to get prepared for logical and analytical ability like Coding- Decoding, Series, Puzzles, etc.

Note:The type of questions that may be asked in verbal ability section include Spotting Errors, Sentence Improvements, Para- Jumbled, Reading Comprehension, idioms and phrases, letter writing, essay writing.

Module- III Group discussion and Personal interview:

How to prepare for certain personality traits like confidence, communicating with the team, participation, ability to present one's views in a clear and concise manner, interpersonal skills, leadership skills etc. To demonstrate the general behavior and dressing sense for interview. How to respond and act during an interview session. How to communicate with the interviewer using the appropriate terminology to make the students presentable in front of the interviewer.

Module- IV Pharmaceutical Module:

Module preparation according to Job profile. Discuss the technical aspects of the different apparatus used in the pharmaceutical industries. To make the students aware of the different regulatory bodies and their functioning. How to move ahead with technical reasoning. Sensitization to revise basics of anatomy, pharmacology and possible technical queries of industrial aspect.

Course Duration: 16 Hours

Course Schedule: 1 Hour/week

Course Beneficiary: Under Graduate Students (Bachelor of Pharmacy VII Semester)

Value Added Course Scientific Writing

SCHOOL OF PHARMACY & RESEARCH

Value Added Course Scientific Writing

The value-added course Scientific Writing is divided into 5 Modules

Modules	Name of Module
Module 1	Scientific Writing&Guidelines
Module 2	Scientific Literature Search and its Review
Module 3	Scientific Articles
Module 4	Softwares for Article writing
Module 5	Basic Computer skills Using Computer technology

Course Description:

This course aims to demystify the writing process and teach the fundamentals of effective scientific writing. Instruction will focus primarily on the process of writing and publishing scientific manuscripts but grant writing will also be addressed. The course will be presented in different segments: Students learn and practice the conventions for writing scientific material for a variety of audiences. The course will also take a multi-modal approach so that students can also work on presentations and posters, using visuals and graphics effectively to convey their message in the scholarly and public realm, including print and digital publishing sites, adapting the materials and texts as needed to become increasingly sophisticated critical thinkers and writers who can shape material effectively.

These 25 hours lecture course involves writing and research assignments, multimedia presentations through lecture, in-class and on-line searches.

- 1) Educate students how to write effectively, concisely, and clearly
- 2) Educate them through the preparation of an actual scientific manuscript.

SCHOOL OF PHARMACY & RESEARCH

- 3) Student shall learn, the ways to communicate their scientific write-ups.
- 4) Students taking the class for 2 hours weekly shall be asked to attend a lecture and to complete some short writing and editing exercises, including writing a research paragraph / article and sample of communication letters to the Editor.

Learning goals and Outcomes:

The successful student will demonstrate the ability, to

- Present scientific information in appropriate language for various audiences, including scholarly and general, in print and online.
- Understand the needs of various audiences/readerships and how these needs affect the style, vocabulary, and content of writing.
- Recognize the conventions governing the dissemination of scientific knowledge
- Understand the origins of scientific writing styles
- Write concisely, concretely, and accurately to present complex scientific ideas clearly.
- Expand information literacy (researching primary and secondary sources) for finding, evaluating, integrating and synthesizing ethically the necessary information and visuals for the completion of a project.
- Effectively and ethically incorporate appropriate scientific exhibits (visuals, graphs, charts, etc) for designing presentations and posters, and for supplementing text.
- Workshop and revise text, respond effectively to peers' work in progress and participate in collaborative learning activities.

Course Duration: 18 Hours

Course Schedule: 1 Hours/week

Course Beneficiary: Post Graduate Students (Master of Pharmacy) 3rd Sem

Course Outline: Syllabus

SCHOOL OF PHARMACY & RESEARCH

Syllabus

Module 1: Scientific Writing&Guidelines

Introduction, Role, Types and Importance of Scientific Writing, Various methods of Scientific Writing and communication, Good Publication Practices Documentation Standards.Duties of Author, Guidelines of International Committee of Medical Journal Editors (ICMJE) and other bodies, Guidelines and Checklists of relevant to Article writing in diverse Article fraternities, Publication, Ethics, Journal quality and impact assessment of article.

Module 2: Scientific Literature Search and its Review

Searching the scientific literature, various online library, online search engines (Google Scholar, PubMed, Elsevier etc.), Various ways to read articles, Reviewing and Review writing.

Module 3: Scientific Articles

Overview of scientific articles, Reviews, Research articles, systematic review, meta-analysis, commentary, letter to editor, editorials, etc. Article writing, Exercises and examples, selecting target journal and publisher, Overview process of Article submission, Letter writing to editorial board, Reviewing, Editing and Publishing process.

Module 4: Softwares for Article writing

Introduction of Referencing software, article writing software, and plagiarism software, (Endnote, Mendeley, Microsoft Citation tool, Turnitin, Viper, Plagiarism Checker, etc.) Cross referencing, citation, Various Citation styles and Bibliography. Introduction of other scientific softwares such as Graph Pad (Prism), Chem Draw, Chem Office etc

Module 5: Basic Computer skills Using Computer technology:Basic features of Microsoft Word, Excel and PowerPoint. Formatting (including margins, tabs, indents, justification, etc), Using the table feature, creating tables of content, charts, graphs. Organization and formats for posters using Microsoft PowerPoint, Oral Presentations Designing and preparing slides for an oral presentation Importing tables, charts and

Value Added Course: Gender Sensitization

PEOPLE'S UNIVERSITY
SCHOOL OF PHARMACY & RESEARCH

(Formerly People's Institute of Pharmacy & Research Centre)

(Common to All Branches)

(Code no.)

GENDER SENSITIZATION

(An Activity-based Course)

Objectives of the Course:

- To develop students' sensibility with regard to issues of gender in contemporary India.
- To provide a critical perspective on the socialization of men and women.
- To introduce students to information about some key biological aspects of genders.
- To expose the students to debates on the politics and economics of work.
- To help students reflect critically on gender violence.
- To expose students to more egalitarian interactions between men and women.

Learning Outcomes:

- Students will have developed a better understanding of important issues related to gender in contemporary India.
- Students will be sensitized to basic dimensions of the biological, sociological, psychological and legal aspects of gender. This will be achieved through discussion of materials derived from research, facts, everyday life, literature and film.
- Students will attain a finer grasp of how gender discrimination works in our society and how to counter it.
- Students will acquire insight into the gendered division of labour and its relation to politics and economics.
- Men and women students and professionals will be better equipped to work and live together as equals.
- Students will develop a sense of appreciation of women in all walks of life.
- Through providing accounts of studies and movements as well as the new laws that provide protection and relief to women, the textbook will empower students to understand and respond to gender violence.

Syllabus

Unit-I: GENDER OVERVIEW

Gender: Why Should We Study It?

Socialization: Making Women, Making Men Introduction, definition, nature and evolution, culture, tradition, historicity, Preparing for Womanhood. Growing up Male. First lessons in Caste. Different Masculinities.

Unit – II: GENDER AND BIOLOGY

Missing Women: Sex Selection and Its Consequences

Declining Sex Ratio. Demographic Consequences.

Gender Spectrum: Beyond the Binary

Biological, Sociological and psychological conditioning, Two or Many? Struggles with Discrimination.

Unit – III: GENDER AND LABOUR

Domestic work: the Invisible Labour and use value

“My Mother doesn’t Work.” “Share the Load.”

Women’s Work: Its Politics and Economics

Fact and Fiction. Unrecognized and Unaccounted work. Additional Reading: Wages and Conditions of Work.

Unit – IV: ISSUES OF VIOLENCE

Sexual Harassment: Say No!

Sexual Harassment, not Eve-teasing- Coping with Everyday Harassment- Further Reading: “Chupulu”.

Domestic Violence: Speaking Out

Is Home a Safe Place? -When Women Unite [Film]. Rebuilding Lives. Additional Reading: New Forums for Justice.

Thinking about Sexual Violence

Blaming the Victim-“I Fought for my Life.” - Additional Reading: The Caste Face of Violence.

Unit – V: GENDER: CO-EXISTENCE

Just Relationships: Being Together as Equals

Gender: emerging issues and challenges Mary Kom and Onler. Love and Acid just do not Mix. Love Letters. Mothers and Fathers. Additional Reading: Rosa Parks-The Brave Heart.

Essential Reading: All the Units in the Textbook, “*Towards a World of Equals: A Bilingual Textbook on Gender*” written by A.Suncetha, Uma Bhrugubanda, DuggiralaVasanta, Rama Melkote, VasudhaNagaraj, Asma Rasheed, GoguShyamala, DeepaSreenivas and Susie Tharu.

Note: Since it is Interdisciplinary Course, Resource Persons can be drawn from the fields of English Literature or Sociology or Political Science or any other qualified faculty who has expertise in this field from engineering departments.

Gender Sensitization (A Value Added Course)

Target Semester: III Semester
Course & Curriculum: **Gender Sensitization**

Session: July-Dec. 2021

MODULE FOR GENDER SENSITIZATION

The Objective of the program:

- To develop students' sensibility with regard to issues of gender in contemporary India.
- To provide a critical perspective on the socialization of men and women.
- To introduce students to information about some key biological aspects of genders.
- To expose the students to debates on the politics and economics of work.
- To help students reflect critically on gender violence.
- To expose students to more egalitarian interactions between men and women.

S. No.	Module	Unit	Topic	Allotted Hours of Teaching
1.	Module I	I	Understanding Gender	5
2.	Module II	II	Gender and Biology	5
3.	Module III	III	Gender and Labour	5
4.	Module IV	IV	Issues of Violence	5
5.	Module V	V	Gender : Co-existence	5
TOTAL HOURS OF STUDY				25

Job Responsibilities of Gender Sensitization In-charge

- 1. Faculty has to prepare lectures for teaching syllabus.
- 2. Notes/PPT/any relevant material would be provided by faculty.
- 3. Faculty has to prepare question in design pattern for every topic.
- 4. After earning minimum score a certificate of completion would be granted to the student.

School of Pharmacy & Research, People's University
Value Added courses Examination and Evaluation

The value added course shall carry 50 marks with Internal Assessment and End Semester assessment.

Award list Format:

Internal Assessment (IA):

- The IA will be done by (Multiple Choice question) MCQ.
- The duration of assessment is one hour each.
- IA, the assessment will be done by the Course Teacher

Internal Assessment (IA)	MCQ	Attendance	Total
	10	05	15

End Semester Examination: will be evaluated by MCQ, assignment and PPT that would be suitable to the course. The break-up of marks will be as follows:

End Semester Examination	MCQ	PPT/Viva Voce	Report	Total
	10	10	15	35

The End Semester Examination will be of one hour's duration and will cover the entire syllabus of the course.

Assessment of Value-added Courses:

Assessment of VACs shall be internal. IA Tests will be conducted during the semester by the individual course Teacher offering VAC and evaluated by the course Teacher.

Passing Criteria and Grading System: The passing criteria for value added courses shall be 50% of the marks obtained in both internal and end semester examination Evaluation of the performance of the student will be rated as shown in the Table.

Grade	Description of Performance	Marks %
A+	Out standing	90 and above
A	Excellent	80-89
B	Very good	70-79
C	Good	60-69
D	Satisfactory	55-59
E	Pass	50-54
F	Fail	Less than 50

Awarding Certificate: Candidates can get a certificate after passing of above said examination

VALUE ADDED PROGRAM

Brochure on

“BASIC NURSING PROCEDURE” PROGRAM

Preamble

The basic principles and practices of nursing shall be taught in all the UG courses of all courses in People's College of Paramedical Sciences.

The fundamental of Basic Nursing Procedures emphasizes the importance of fundamental needs of human as well as acceptance in basic skills as prerequisites to provide comprehensive care to the patients. It also provides a solid foundation in critical thinking, evidence based practices, and safe clinical care in all settings.

The fundamentals of nursing will also include the activities of daily living and variations of such activities across the life of the students as well as patients. It also helps the students to develop the holistic approach to treat the patients.

Scope of Basic Nursing Procedures

This course will comprehensively achieve course outcome to help the students to enhance their knowledge and improve their skills

- ✚ This programme shall enable the students to give the best patient care.
- ✚ Students shall be able to develop favorable attitudes and habits which are required to treat the patients.
- ✚ Students will be able to have the knowledge of first aid treatment.
- ✚ Students shall be able to provide assistance to senior medical officers in ICU and emergency care in hospital as well as may be met in the community.

Eligibility Criteria:

All the students of the Institute enrolled in 1st year Undergraduate are eligible for the admission to the course “BASIC NURSING PROCEDURE”.

Attendance:

70% attendance is mandatory in theory/practical classes during the course duration. The students with poor attendance shall be provided with one more chance for tutorial classes.

Examination/ Assessment:

MCQ test shall be conducted at the end of every course. In case the participant is unable to qualify the test in his/her first attempt, he/she will be given two more attempt(s) to appear and qualify the test, within 4 months of the first result. Non attempt of the examination shall also be counted as an attempt. There shall be no separate program and examination fee.

Certification:

The candidate successfully completing the Course shall be awarded a Certificate and/ or Transcript by Peoples College of Paramedical Sciences; certified by the course coordinator and HOI.

Curriculum for Basic Nursing Procedure:

S.NO	TOPIC	OUTCOME	MODE OF EXECUTION	TOTAL HOURS	EVALUATION
01	History Taking And Assessment On Nursing Prospective.	<ul style="list-style-type: none"> ➤ The topic entitles the student to be well acquainted, how to take history and assess the patient. ➤ Students are able to apply their knowledge and learn how to build a rapport with the patient. 	<ul style="list-style-type: none"> ➤ Theory=02hrs <i>(Didactic Classes/ppt mode)</i> ➤ Demonstration class=01hrs 	03hrs	<ul style="list-style-type: none"> • Viva-voce • Class test
02	Bed Making And Positioning	<ul style="list-style-type: none"> ➤ The student acquires a basic knowledge of how to prepare a bed for a patient and importance of positioning in different conditions. 	<ul style="list-style-type: none"> ➤ Theory=1hrs <i>(Didactic Classes/ ppt mode)</i> ➤ Demonstration class=01hrs 	02hrs	<ul style="list-style-type: none"> • Viva-voce • Practical
03	First Aid And Emergency Care. (Basic Life Support)	<ul style="list-style-type: none"> ➤ The student shall understand to deal with various emergency care. For e g basic life support and advanced cardiac life support in emergency department and ICU care. 	<ul style="list-style-type: none"> ➤ Theory=3hrs <i>(Didactic Classes/ ppt mode)</i> ➤ Demonstration class=01hrs 	04hrs	<ul style="list-style-type: none"> • Viva-voce • Practical

04	Infection Control and Disinfection Procedure	<ul style="list-style-type: none"> ➤ The student knows about the pathophysiology of infection and how to deal with it in general. ➤ It also helps them to minimize the exposure to health care associated in infection . ➤ Students know the rationale for sterilization and disinfection. ➤ They learn the appropriate methods of disinfection. 	<ul style="list-style-type: none"> ➤ Theory=1hrs (<i>Didactic Classes/ ppt mode</i>) ➤ Class Test=1hr 	01hrs	<ul style="list-style-type: none"> • Viva-voce
05	Odema Management	<ul style="list-style-type: none"> ➤ Students are able enough to manage the condition related in which the edema are quite 	<ul style="list-style-type: none"> ➤ Theory =01hrs(<i>Didactic Classes/ ppt mode</i>) ➤ Demonstration class=01hrs 	02hrs	<ul style="list-style-type: none"> • Viva-voce
06	Medical routes of administration and procedure	<ul style="list-style-type: none"> ➤ Students are able enough to learn the routes of administration of drugs e.g subcutaneous, intramuscular etc. 	<ul style="list-style-type: none"> ➤ Theory = 01hrs(<i>Didactic Classes/ ppt mode</i>) ➤ Demonstration class=01hrs 	02hrs	<ul style="list-style-type: none"> • Viva-voce
07	Dermatological and wound care	<ul style="list-style-type: none"> ➤ Students get the knowledge of various dermatological diseases and how to take care of wounds 	<ul style="list-style-type: none"> ➤ Theory = 02hrs(<i>Didactic Classes/ ppt mode</i>) ➤ Demonstration class=02hrs 	04hrs	<ul style="list-style-type: none"> • Viva-voce
08	Intravenous procedure	<ul style="list-style-type: none"> ➤ Students gain the knowledge of various intravenous procedures related to like how to put the needle into the vein and set the IV line. ➤ They are able to monitor various status and also monitor intake and output for changes in renal function 	<ul style="list-style-type: none"> ➤ Theory = 02hrs(<i>Didactic Classes/ ppt mode</i>) ➤ Demonstration class=02hrs 	04hrs	<ul style="list-style-type: none"> • Viva-voce

09	Aspiration procedure (oropharyngeal and endotracheal tube)	<ul style="list-style-type: none"> ➤ Students shall be able to understand procedure for aspiration in oropharyngeal and endo-tracheal tube. ➤ They shall be able to maintain the hygienic procedures. 	<ul style="list-style-type: none"> ➤ Theory = 01hrs(<i>Didactic Classes/ ppt mode</i>) ➤ Demonstration class=01hrs 	02hrs	<ul style="list-style-type: none"> • Viva-voce
10	Humidification and Nebulization	<ul style="list-style-type: none"> ➤ Students will be able to use the humidification and nebulization procedures used in various respiratory and cardiac as well as other surgical procedure. 	<ul style="list-style-type: none"> ➤ Theory = 02hrs(<i>Didactic Classes/ ppt mode</i>) ➤ Demonstration class=01hrs 	02hrs	<ul style="list-style-type: none"> • Viva-voce • Class test
11	Mechanical ventilator (basics only)	<ul style="list-style-type: none"> ➤ Students will be able to understand the use of mechanical ventilation as a life support system. Students will be able to understand the working of ventilator and how we can carry out other medical procedure with precautions. 	<ul style="list-style-type: none"> ➤ Theory = 01hrs(<i>Didactic Classes/ ppt mode</i>) ➤ Demonstration class=01hrs 	02hrs	<ul style="list-style-type: none"> • Viva-voce • Class test
12	Protective Equipments self Hygiene	<ul style="list-style-type: none"> ➤ Students are able to understand the Infection prevention and control measures including hand hygiene, personal protection, equipment and proper management of waste. 	<ul style="list-style-type: none"> ➤ Theory = 01hrs(<i>Didactic Classes/ ppt mode</i>) ➤ Demonstration class=01hrs 	02hrs	<ul style="list-style-type: none"> • Viva-voce

YOGA AND WELLNESS

Course Description

This course provides the basic concept of yoga and its usefulness for enhancing mental health. The student will learn about various Yogasanas and their benefits, relaxation of body and mind and its health benefits.

COURSE OBJECTIVES:

After successful completion of the program the students shall be capable of:

- + Applying various Yogasanas.
- + They shall know the importance of mind-body awareness, self regulation and physical fitness.
- + They shall able to explore the concept of mental health and how it can be promoted.

COURSE DURATION:

The total duration of the course will be about minimum 20 hours of teaching and learning.

ELIGIBILITY:

The regular students of the Peoples College of Paramedical Sciences who are enrolled in II year UG program shall be considered eligible for the value added program on Yoga.

ATTENDANCE:

100% of attendance is necessary for the program to get participation certificate. Candidate who shall fails to attend the class shall be provided opportunity in the succeeding year to complete their left out topics.

CERTIFICATION:

The candidates successfully completing the course shall be awarded with a certificate of participation in “Yoga and Wellness” by Peoples College of Paramedical Sciences; certified by the HOI.

PEOPLE'S COLLEGE OF PARAMEDICAL SCIENCES & RESEARCH CENTRE

VALUE ADDED PROGRAM

BROCHURE OF ESSENTIALS OF BIOSTATISTICS

ESSENTIALS OF BIOSTATISTICS

COURSE DESCRIPTION

The necessity of Essentials of Biostatistics is to impart the knowledge of application of statistics to biomedical and Health sciences. The short term value added program is designed to cover the basic concepts required to understand the collection, summarization, and analysis of data and the interpretation of data in day to day professional practice.

COURSE OBJECTIVES

The objective of this course is as follows:

- Cognitively, the course aims to instill a deep sense of appreciating data and basic statistical skills in order to explore its practical application.
- The student shall become confident in dealing with the statistical data.
- The course intends on imparting basic working knowledge about biostatistics.

COURSE DURATION

The total duration of the course will be minimum 16 hours of teaching and learning.

ELIGIBILITY

Regular students of People's College of Paramedical Science & Research Centre enrolled in final year Under Graduate programs i.e. BPT and BMLT shall be considered for the program.

ATTENDANCE

100% of attendance is necessary for the student to be awarded the participation certificate.

CERTIFICATION

The candidates successfully completing the course shall be awarded a certificate of participation in “Essentials of Biostatistics” by Peoples College of Paramedical Sciences; certified by the HOI.

PEOPLE'S COLLEGE OF PARAMEDICAL SCIENCES & RESEARCH CENTRE

BROCHURE OF

COMPUTING FUNDAMENTALS

COMPUTING FUNDAMENTALS

COURSE DESCRIPTION

The course is designed in order to introduce computers to the students and teach them about the basic applications required for regular professional dealings. This also works as a refresher course for those students who already have knowledge about computers. The short-term value-added program is designed to cover the basic concepts about hardware, accessories, and applications that can be used in day-to-day professional practice.

COURSE OBJECTIVES

The objective of this course is as follows:

- The course intends to make the students well-versed with computer functioning for routine use. They will learn about computer hardware, basic functioning, its accessories, and basics about MS Office.
- After the completion of the course, the students will be able to confidently perform basic works on the computer such as data entry, data compilation, send an email, and attach documents to the email.

- The course will also help students to obtain an understanding of advanced computer functions such as statistical analysis, gathering study materials, etc. which are required in health science education.

COURSE DURATION

The total duration of the course will be minimum 24 hours of teaching and learning. (Theory 16 hours, Practical 6 hours)

ELIGIBILITY

Regular students of People's College of Paramedical Science & Research Centre enrolled in final year Under Graduate and Diploma programs i.e. BPT, BMLT, DMLT AND DDT shall be considered for the program.

ATTENDANCE

100% of attendance is necessary for the student to be awarded the participation certificate.

CERTIFICATION

The candidates successfully completing the course shall be awarded a certificate of participation in “Computing Fundamentals” by Peoples College of Paramedical Sciences; certified by the HOI.

NATIONAL SERVICE SCHEME

PREAMBLE

National Service Scheme, Popularly known as NSS is an extension of activities to the higher education system to orient the student youth to community service while they are studying in education institutions. The scheme is under the aegis of Ministry of Youth Affairs & Sports, Govt. of India with its main objective “development of the personality of students through community service.” The NSS was formally launched on 24th September, 1969, on the birth centenary year of the Father of the Nation. Therefore, 24 September is celebrated every year as NSS Day with appropriate programmes and activities.

National Service Scheme provides the students an opportunity to understand the community; identify its needs and problems as well as the solutions in which they can be involved by assuming social and civic responsibilities. NSS also provides students with the opportunity to apply their education in finding practical solutions to the problems faced by the individuals and the community at large.

The NSS volunteers generally work in villages, slums and voluntary agencies to complete 120 hours of regular activities during an academic year. As per the fundamental principles of National Service Scheme, a volunteer is expected to remain in constant touch with the community. In doing so, volunteers learn from people in villages how to lead a good life despite a scarcity of resources. The volunteer also provides help in natural and manmade disasters by providing food, clothing and first aid to the disaster victims.

SCOPE OF NSS PROGRAMME

With the motto “Not Me but Thou” reflects the essence of democratic living and upholds the need for self-less service. The followings are the aim and scopes of NSS programme:

- ⊕ Arousing social consciousness of the students with regards to social awareness and knowledge of social realities
- ⊕ Understanding the community in which they work and to have concern for the well-being of the community and engage in constructive social action.
- ⊕ Developing the needed skills in the exercise of democratic leadership and to help the students with ~~qu~~ development in relation to their community.
- ⊕ Identifying the needs and problems of the community and involve them in problem solving process.
- ⊕ Developing youngsters with a sense of social and civic responsibility
- ⊕ Building up competent volunteers who can utilize their knowledge in finding practical solution to individual and community problem.
- ⊕ Developing competence required for group-living and sharing of responsibilities with gaining skills in mobilizing community participation.
- ⊕ To produces responsible citizens with democratic attitude
- ⊕ Developing capable youths to meet emergencies and natural disasters; and Development of Student’s personality through community service.

Eligibility Criteria

All the bona fide full time students of the People's College of Paramedical Sciences (both boys and girls) are eligible for the enrollment of the Level-1 NSS programme, which is of one year duration. The students who successful complete the Level-1 NSS programme activities shall be consider eligible for the Level-2 programme of one year duration.

ATTENDANCE

It is mandatory for every student to have 70% attendance in lectures and other associated voluntary social activities to be able to participate in the examination. Candidate who is not able to attend the class will be provide done chance to appear in tutorial classes.

EXAMINATION/ ASSESSMENT

MCQ and short answer questions shall be conducted at the end of every course. In case the participant is unable to qualify the test in his/her first attempt, he/she will be given another two chances to appear and qualify the test and exam, within 4 months of the announcement of first result. There shall be no separate program and examination fee.

CERTIFICATION

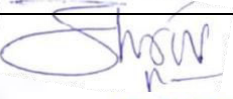

The candidates successfully completing the Course and the associated voluntary social activities shall be awarded a Certificate and/ or Transcript by Peoples College of Paramedical Sciences; certified by the course coordinator and HOI.

FUNDAMENTALS OF HOSPITAL MANAGEMENT AND ADMINISTRATION

COURSE DESCRIPTION:

The course aims to develop skills among students to manage, schedule, coordinate and track the provisions of medical and health services .The course is designed for students in order to get them acquainted with basics of hospital administration and management .

The major focus of the course is to develop basic administrative skills for efficient working in their respective fields.

COURSE OBJECTIVE :

The course enables the students to :

- Apply theoretical ideas and materials from this course to resolve problems and develop opportunities in health care.
- Develop their leadership and teambuilding abilities.
- Enhance their alignment with local and national context

DURATION:

16 HRS

ELIGIBILITY :

Any student enrolled in final year of any course offered by Peoples College Of Paramedical Sciences shall be considered eligible for the program .

ATTENDANCE:

100% of attendance shall be mandatory for the certificate of participation .

CERTIFICATE:

The Student who fulfills the course criteria shall be awarded with a course completion certificate by the HOI on “ Fundamentals Of Hospital Management and Administration ”

PEOPLE'S COLLEGE OF PARAMEDICAL SCIENCES & RESEARCH CENTRE

The course aims to develop skills among students to manage, schedule, coordinate and track the provisions of medical and health services .The course is designed for students in order to get them acquainted with basics of hospital administration and management .

Syllabus (Duration : 16hrs)

- Hospital environment and health care
- Concept of health and disease
- behavior –Personality development ,Leadership ,Motivation
- Hospital support services
- Material management
- Biomedical waste management
- Health management information system
- Human resource development

VALUE ADDED PROGRAM

BROCHURE FOR “DISASTER MANAGEMENT” PROGRAM

Preamble:

Program of Disaster Management deals to enable students to recognize the increasing vulnerability of the planet in general & India in particular to disasters. Thus, it is expected to create a basis to work towards preparedness & also help us to develop a culture of safety & prevention.

The adoption of a disaster risk reduction perspective in the teaching of the course would be useful. While disasters are generally seen as an outcome of catastrophic natural events. The idea of pre-existing vulnerabilities is equally important. These need to be understood & addressed if disaster impacts are to be minimized .

The value added Course like Disaster management is a highly multidisciplinary subject where in rich contributions have been made by the fields of environment sciences, medicine, sociology, political science, economics, psychology, public administration, and so on.

Scope of the course:

This course will help the students to enhance their knowledge and to successfully achieve the following:

- * Students shall gain a preliminary understanding of approaches of disaster risk reduction (DRR).**
- * To enhance awareness of institutional processes in the country and institutional process & multidisciplinary.**
- * Students shall have to understand the relationship between Vulnerability, disasters, disaster prevention & risk reduction.**
- * To develop rudimentary ability to respond to their surroundings with potential disaster response in areas where they live with due sensitivity.**

Eligibility Criteria:

The regular students of the Institute are eligible for the program. The students who had successfully entered the final year of UG program with a grown understanding of Environmental variation, Natural and Man made Disasters shall be enrolled in the “Disaster Management” program.

Attendance:

70% of attendance is necessary in lecture class to eligible in the examination. Candidate who shall fails to attend the class shall be provided one chance to appear in tutorial classes.

Examination/ Assessment:

MCQs & SAQs (Short answer questions) test shall be conducted at the end of the course. In case the participant is unable to qualify the test in his first attempt, he shall be given two more attempt (s) to appear and qualify the test, within 4 months of the first result. Non attempt of the examination shall also be counted as an attempt. There shall be no separate program and examination fee.

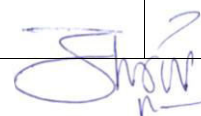

Certification:

The candidates successfully completing the Course shall be awarded a Certificate and/ or Transcript by Peoples College of Paramedical Sciences; certified by the course coordinator and HOI.

Curriculum for Disaster Management:

S. NO	TOPIC	OUTCOME	MODE OF EXECUTION	TOTAL HOURS	EVALUATION
1.	Introduction to Disasters	The topic entitles the student to understand the scope & concept of Disaster Hazard, Vulnerability, resilience & Risks .	Theory : 04 hrs (<i>Didactic classes/ppt Mode</i>) Revision class : 01 hr	05 hrs	Class Test Viva-voce

BROCHURE FOR FUNDAMENTAL OF ENGLISH LANGUAGE

Course Description

This course emphasizes the fundamental of English language skills of reading, writing, speaking, listening, thinking, viewing and presenting. The underlying theory and instructional model of teaching within the English program is balanced Literacy.

This approach provides for essential skills and strategy instructions within the context of meaningful relevant authentic reading, writing and oral language activities and routine.

As a program, it is important to prepare our students for the real world and global community. In order to ensure students are ready, functional literacy, instruction will also be provided within the curriculum.

The total duration of the course will be about minimum 16 hours of teaching and learning

Course Objective

After successful completion of the program the students shall be capable of:

- Improve understanding of English Language.
- Using English effectively for study purpose across the curriculum
- Understanding of Literature

- Developing and integrating for mode of language skills i.e. Reading, Listening, Speaking and writing.

Course Duration

The total duration of the course shall be of minimum 26 hours of teaching and learning.

Eligibility

The regular students of the Peoples College of Paramedical Sciences who are enrolled in

I year UG program shall be considered for value added program in Fundamental Of English Classes.

Attendance

100% of attendance is necessary for the program to get the awarded participation certificate. Candidate who shall fails to attend the class shall be provided opportunity in the succeeding year to complete their left out topics.

Certification

The candidates successfully completing the course shall be awarded with certificate of participation in “Fundamental of English Language” by Peoples College of Paramedical Sciences; certified by the HOI.

Brochure for
Value Added Program on
“ENVIRONMENTAL STUDIES”

PREAMBLE:

As per Agenda 21, the action plan of United Nations Organization on sustainable development states that “Education, including formal education should be recognized as process by which human being and societies can reach their full potential. It is recognized that education is the most effective means that society possess for tomorrow”.

The national policy on education 1986 made environmental education a part of general education at all levels.

Recognizing the central role of education in environmental production, the national policy of education states that “There is a paramount need to create consciousness of the environment. Environmental consciousness should inform teaching in schools and colleges. Environmental education aims at bringing awareness about this relationship between human being and environment and the problems we are facing today because of negative impact. It inculcates habits, values, emotions and attitudes required to maintain and promote quality environment for survival of mankind.

Scope of Programme:

- ✚ This course will help the students to enhance their knowledge and to successfully achieve following course outcomes the student:
- ✚ Shall explore, appreciate and value their environment.
- ✚ Shall connect with their natural and human made environment and understanding dependence on various components of environment.
- ✚ Shall develop a holistic understanding of their environment.
- ✚ May develop favorable attitudes and habits to protect and preserve our environment.

Eligibility Criteria:

Students of the Institute are eligible for the admission to the course. All the full time students who had enrolled in first year of all the Ug programmes offered in institute shall be eligible for the course “ENVIRONMENTAL STUDIES.”

Attendance:

Attendance of 70% is necessary in lecture to be eligible for the examination. Candidate who is not able to attend the class will be provided one chance to appear in tutorial classes.

Examination/ Assessment:

MCQ test shall be conducted at the end of the course. In case the participant is unable to qualify the test in his/her first attempt, he will be given two more attempt (s) to appear and qualify the test, within 4 months of the first result. Non attempt of the examination shall also be counted as an attempt. There shall be no separate program and /or examination fee.

Certification:

The candidates successfully completing the Course shall be awarded a Certificate and/ or Transcript by Peoples College of Paramedical Sciences; certified by the course coordinator and HOI.
