BITE MARK IDENTIFICATION IN FORENSIC ODONTOLOGY

Webinar Summary

Introduction

Live webinar on “***BITE MARK IDENTIFICATION IN FORENSIC ODONTOLOGY***” was conducted by

Department of Oral Pathology, PCDS & RC

In collaboration with

Indian Association of Forensic Odontology (IAFO)

On June 2, 2020 at 11 am on Zoom webinar platform.

The Guest lecture by Dr. J. Augustine was for 1 hour followed by an interactive panel discussion with question and answers by the participants.

Dr. Shubhangi Mhaske hosted and moderated the session. Dr. Monal Yuwanati coordinated for technical support from IT dept. Mr Anuj Rai from Peoples University, IBM wing. Dr. Ami Saxena gave the vote of thanks. Post session, participation certificates were sent to all the attendees.

Key take away:

- Bite mark analysis is a vital area of forensic odontology and May provide crucial evidence to the court of law.
- Bite marks may be found on the either the suspect or victim
- Meticulous examination and attention to protocols is required.
- Be cautioned against overzealous reporting
- Need to create awareness among law enforcement agencies and judiciary regarding scope and requirements
