Annual Report of Camp (2017-18)

People's College of Dental Sciences & Research Center, Bhopal organized 69 free oral health check-up & awareness camps in the session of 2017-18 in which our 251 students and 79 staff members participated. Every camp held under the supervision of staff members of PCDS & RC and our team also includes interns, students, nursing staff, and non-teaching staff. Department of Public Health Dentistry of PCDS & RC actively working on conducting dental health awareness campaigns and our other departments also give their immense contribution. Our all camps were initiated with the importance of dental health awareness talk, including oral health education with stressing on tooth decay and gum diseases and measures of prevention, brushing technique demonstrations on models, and tobacco cessation. Our team especially interns were highlighted about the eating patterns and food choices which cause tooth decay. We have also conducted some treatment camps in which we included oral prophylaxis, extractions of mobile teeth, restorations, and for complex treatment we refer camps participants to our college.
