

Year	Type of Study	Title of research Project	Name of Principal Investigator	Departments / Institute
2018	Short Term Student Project	Career prospective among health professional (Students) in Bhopal	Miss. Akriti Srivastava Miss. Amisha Das Miss. Adya Tiwari Miss. Amala G. George Miss. Akanksha Singh Miss. Afifah Muzna	Public health dentistry, PCDS & RC
2018	Short Term Student Project	Comparative evaluation of efficacy of different irrigants of removal of idoform based calcium hydroxide medicament from root canals – In vitro study	Dr. Rinkal Luhana and Dr. Swati Gurjar	Conservative department PCDS & RC
2018	Short Term Student Project	Exploring the ascoaiton of of blood gorup with denal caries and personality factor: A bhopal Based study	D. Aashana Dhingra	Public health dentistry, PCDS & RC
2018	Short Term Student Project	To compare the efficacy of 5 % NaOCL with 1oo mg neem extrct in disinfecting gutta purcha cones in different time interval	Dr. Priyanka Dubey	Conservative department PCDS & RC

2018	Dissertation	Evaluation of efficacy of slotted screw and Philips head screw in maxillofacial fixation- A comparative study.	Dr. Kanchan Dahare	Oral and Maxillofacial Surgery
2018	Dissertation	Effect of Non-surgical Periodontal therapy on level of Human simplex (HSV), Epstein Barr Virus (EBV) and Human Cytomegalovirus (HCMV) , in Patient with chronic generalized periodontitis by using Multiplex Polymerase chain reaction (PCR) method- AN in Vivo study	Dr. Shweta Rachalwar	Periodontology
2018	Dissertation	A comparative study between conventional denture and silver incorporated denture for microflora adhesion – An in vivo study	Dr. Priyangi Singh	Prosthodontics and crown, bridge
2018	Dissertation	Evaluation of stress distribution in bone surrounding an osseointegrated implant and a natural tooth in a combination tooth implant supported prosthesis using different luting agents and prosthesis material (in Vivo study): using 3D finite element analysis (FEA)	Dr. Sneha Basu	Prosthodontics and crown, bridge
2018	Dissertation	Evaluation of stress distribution with straight and angle abutments around CFR-PEEK and titanium implant with 2 different prosthetic crowns under parafunctional loading: A 3D FEA study	Dr. Akanksha Mourya	Prosthodontics and crown, bridge
2018	Dissertation	A comparative study of the immediate loading of two implant versus the conventional loading of two implant to retain mandibular overdenture opposed by conventional maxillary complete denture- An in vivo study	Dr. Deepali Dongle	Prosthodontics and crown, bridge

2018	Dissertation	Evaluation of accuracy of repoured casts with two different impression technique of implant at different angulation (In vivo study)	Dr. Monika Srivastava	Prosthodontics and crown, bridge
2018	Dissertation	To evaluate the efficacy of cyanoacrylate glue in non-load bearing fractures of mid and upper face	Dr. Shubhangi Kangloo	Oral and Maxillofacial Surgery
2018	Dissertation	Submandibular approach to achieve inferior alveolar nerve /lingual nerve- a novel alternative extra oral technique for establishing mandibular local anaesthesia in patients with compromised mouth opening	Dr. Monica Gupta	Oral and Maxillofacial Surgery
2018	Dissertation	Salivary interleukin-6: Assessment in chronic generalized periodontitis patient with and without type 2 diabetes mellitus: Ex Vivo study	Dr. Shreya Modi	Periodontology
2018	Dissertation	Comparison Of Conventional Fluoride Varnish With Silver Diamine Fluoride As Cavity Arresting Agent And Microbiological Analysis Of Caries Associated Microbes	Dr. Barkha Chhatani	Pedodontics & Preventive dentistry
2018	Dissertation	A Trial Of Preformed Metal Crowns For Managing Primary Teeth By Hall Technique; A Clinical Study	Dr. Nidhi Singh Thakur	Pedodontics & Preventive dentistry

2018	Dissertation	Comparative evaluation of microhardness of three different composite resin with varying thickness – An in-vitro study	Dr. Shraddha Pawar	Conservative dentistry & endodontics
2018	Dissertation	Effect of long term treatment of two different long acting beta-2 agonist combination inhaler therapy on surface characteristics of enamel and restorative material – An in vitro study	Dr. Jyoti Saket	Conservative dentistry & endodontics
2018	Dissertation	Evaluation of push-out bond strength of different fiber reinforced composite cemented with self adhesive resin cement : An in-vitro study	Dr. Anisha Sinha	Conservative dentistry & endodontics
2018	Dissertation	Microbial evaluation of effectiveness of different methods for cleansing of Hawley's retainer	Dr. Farha Deebea	Orthodontic & dentofacial, orthopedics
2018	Dissertation	Dentoalveolar features association with palatally impacted maxillary canine	Dr. Mrinal Bundela	Orthodontic & dentofacial, orthopedics
2018	Dissertation	3D evaluation of pharyngeal airways by CBCT in individual with different growth patterns -Ex vivo study	Dr. Akanksha Soni	Orthodontic & dentofacial, orthopedics

2018	Dissertation	Comparative evaluation of salivary alkaline phosphatase in pre-menopausal and post-menopausal women with and without periodontitis – A biochemical study	Dr. Neha Awadhiya	Periodontology
