Welcome Address from Organizing Chairman

It gives me a great pleasure to welcome all delegates, participants, sponsors and exhibitors to the **43rd National Conference of Indian Society of Pedodontics & Preventive Dentistry** which will be held on **24th-26th November, 2022.**

We are more inspired to expand our reach across the border of this region by bringing together dental researchers, clinical practitioners, partners in the industry and colleagues from the academe to discuss the latest research breakthrough and advances in technology. The meeting provides all participants an opportunity to exchange knowledge, share ideas and collaborate on new researches to strengthen and develop the advancements we've achieved so far, thereby, improving oral health in the region.

It is through research that oral health has been given its much deserved attention and is now considered an important aspect in the overall well being of an individual. The organizing committee together with the National Advisory Committee has prepared an exciting scientific program for everyone to take part in.

On behalf of the Organizing Committee of the National Conference on Pedodontics & Preventive Dentistry, I would like to invite everyone to participate in this important national event of the dental industry.

I look forward to welcoming you to the exotic and beautiful city of Bhopal !

Thank you!

Regards

Prof (Dr.) Parimala Kulkarni

VENUE

People's College of Dental Sciences (PCDS), located in the green and beautiful campus of People's University was established in the year 2002 and is spread across a total land area of 6.62 acres which offers a lush green environment. It is one of the best reputed Private Dental Colleges in Madhya Pradesh.

BHOPAL *Attractions*

Known as the City of Lakes, Bhopal is the capital of Madhya Pradesh. Founded by Raja Bhoj, the city has many natural and artificial lakes and it is one of the greenest cities in the country.

UPPER LAKE

One of the most famous places in Bhopal, the Upper Lake, locally referred to as 'Bhojtaal' or 'Bada Talab', is the oldest man-made lake in India. Dating back to the 11th century, the lake is believed to have been built by Raja Bhoj.

The lake is overlooked by a grand royal garden called Kamla Park, which is another tourist magnet, tempting tourists into its serene folds every year. The ambience and setting of the two places are too remarkable to be ignored.

SANCHI STUPA

One of the most unbeatable places to visit in Bhopal, and possibly in entire India, the magnificence of the Sanchi Stupa remains unmatched till date. Believed to have originated in the 3rd century BCE, the building was built in the reign of the great emperor Ashoka of the Maurya Dynasty and is one of the most remarkable Buddhist monuments in the country.

The Mauryan king undertook the task of redistributing the mortal remains of Lord Buddha all across the face of the country in order to spread the reach of Buddhism. The gigantic dome of the Stupa contains a central vault where the relics of Lord Buddha have been placed.

BHOJPUR TEMPLE

Another stunning heritage built by Raja Bhoj in the 11th century, the Bhojpur Temple is a religious tribute to the Hindu God Shiva, nestled in the rustic village of Bhojpur in Madhya Pradesh. The construction of the temple is incomplete, and the reasons for abandonment of construction aren't clear yet.

Harboring a 7.5 feet high lingam (idol of Lord Shiva), the temple tempts a herd of tourists and pilgrims into its glorious sanctum every year. The majestic remains of the ancient Shiva temple and the cyclopean dam make this an important archaeological site, and a real treat for history buffs and patrons of religion.

One can also find the complete architectural plans of the temple, inscribed on the surrounding rocks.

MADHYA PRADESH TRIBAL MUSEUM

One of the most famous places in Bhopal, Madhya Pradesh Tribal Museum is extremely well planned, and the works displayed have their roots in the tribal culture. It is advised to collect a brochure at the entrance in order to learn a few basics of the tribal life, which makes it easier to decipher the paintings.

The campus is carefully segregated into 6 galleries, each of which is dedicated to the tribal culture, life, art, and mythology.
