84 acre integrated campus, with separate huge buildings for every streams/colleges with state of the art facilities, amenities, conveniences matching global standards.

OPD

STOP

From the **CHANCELLOR'S DESK**

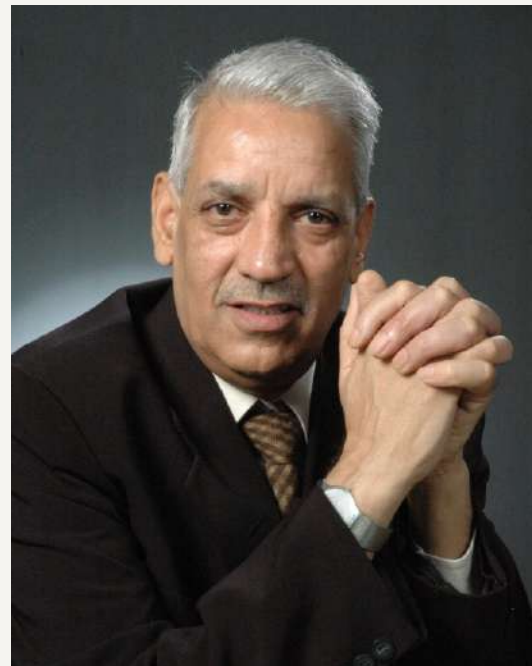

Education is the cornerstone of human progress, an indispensable asset for individuals, communities and nations alike. It is the force that propels societies toward a higher quality of life and the realization of dreams rooted in peace, freedom and social justice. In the rapidly evolving global landscape, the demand for holistic and forward thinking education is greater than ever before.

At the heart of this need lies the importance of management education. In a world increasingly driven by services, innovation and interconnected economies, equipping individuals with the ability to manage human, natural and technological resources is paramount. Our mission at People's is to provide a platform for professional excellence, nurturing future managers who are not only adept at solving complex challenges but also deeply attuned to the dynamics of a globalized world.

Our faculty is committed to the highest standards of teaching, encouraging students to go beyond the surface and critically engage with knowledge. We inspire our learners to question, analyse and innovate, rather than simply apply existing tools. This approach empowers them to become thought leaders in their respective fields. At People's, we aspire to expand our students' understanding

of the world by immersing them in the diverse heritage of human thought, creativity and action. Our institution is a place where learning transcends boundaries and each student is encouraged to explore the broader context of their education.

I warmly invite you to join us at People's and be part of an enriching journey that not only shapes careers but also transforms lives. Together, let us embrace the People's learning experience and strive to create a brighter, more inclusive future.

Shri Suresh N. Vijaywargia
Chancellor

From the **PRO CHANCELLOR'S DESK**

**“True sign of intelligence is not knowledge alone but knowledge coupled with imagination and vision”
- Albert Einstein**

With more than two decades of educational excellence, People's University has always been synonymous for high quality professional education. Thrust on quality and passion for excellence in every endeavor has led People's University to create a distinct niche for itself. The commitment for sensitivity towards social issues and nation building has always been our priority. Alumni of People's University are well placed around the globe and that bears the testimony what we have delivered to education and also the society.

People's University is the culmination of a long-standing dream to establish an educational institution that surpasses conventional learning, while revolutionizing the education with modern practices to create an environment that moulds a student into a holistic human being able to put learning into action and create an impact towards betterment.

Today we live in a very competitive world. Students should never be disheartened with small failures or whenever a mistake is committed. Failures and mistakes are proof that

you are trying. There is no short cut to success; hard work and smart work, both are equally essential in early part of life. A difficult task always seems impossible until it is done, because nothing is impossible for young citizens like you. Believe in yourself. Be bold enough to use your voice, brave enough to listen to your heart and strong enough to live the life you have always imagined.

I believe that education at People's University shall not only create successful careers but also develop socially sensitive citizens who will contribute their maximum to the society and nation building.

Best Wishes to all the students.

Ms Megha Vijaywargia
Pro-Chancellor

From the **VICE CHANCELLOR'S DESK**

It gives me great pleasure to welcome the students to People's University, Bhopal—an institution dedicated to academic excellence, critical thinking, innovation, and holistic development. This University Brochure provides essential information about the academic framework, student services, resources, and policies, helping you navigate campus life with clarity and confidence and enabling you to make informed decisions at every stage.

At People's University, we believe education is a transformative process that extends well beyond the classroom. Our aim is to nurture intellectual curiosity, ethical values, creativity, and social responsibility, thereby shaping responsible and capable citizens. The University comprises well-established colleges, departments, and research centres, supported by a robust SIRO-approved Central Research Facility.

Together, these provide a stimulating learning environment that encourages critical thinking, research, and innovation. Students are strongly encouraged to participate in academic pursuits as well as co-curricular and extracurricular activities, including clubs, sports, NCC, and NSS, which play a vital role in overall personality development. By blending traditional

knowledge with modern technology, the University ensures an effective teaching–learning process supported by an ideal evaluation system. We are deeply committed to the academic success and personal well-being, offering continuous guidance, mentoring, and support throughout the journey of our students. The years spent at the University are a time to build character, form meaningful relationships, and prepare for future challenges and opportunities. I urge the students to make the most of every opportunity, strive consistently for excellence, and remember that success is a journey, not a destination. I am confident that a meaningful contribution to the chosen field and to society will be made by our students.

Dr. Harish Rao

PEOPLE'S INSTITUTE OF MANAGEMENT AND RESEARCH

At People's University, we are committed to nurturing future leaders for the corporate world through a blend of research-driven teaching and practical learning. To realize this vision, we established the People's Institute of Management & Research (PIMR), now recognized as one of the leading MBA colleges in India. As a proud part of the best private MBA college in Bhopal, PIMR continues to raise the bar for management education.

PIMR is dedicated to shaping integrated personalities and responsible citizens by imparting managerial expertise, instilling ethical values, and building self-confidence. Our focus is on empowering students not only as management professionals but also as socially conscious innovators, entrepreneurs, and leaders prepared to make a positive impact.
