

 **Job Title:** Senior Civil Engineer /Civil Engineer

 **Location:** Bhopal, Madhya Pradesh]

 **Type:** Full-Time | On-site

Role Overview:

We are seeking a highly skilled and experienced **Civil Engineer** with a strong background in **construction project execution, team management, and site leadership**. The ideal candidate will play a key role in overseeing and delivering civil infrastructure projects efficiently, safely, and within timelines and budget.

Eligibility Criteria:

Qualification:

B.E./B.Tech in Civil Engineering (Mandatory) from a recognized university

Experience:

8 to 12 years of experience in **civil construction**, preferably in institutional, commercial, or large infrastructure projects

Proven track record of **leading construction teams** and managing on-site activities

Key Responsibilities:

Plan, supervise, and execute civil construction projects from foundation to finishing.
Lead site execution teams, ensuring productivity, quality, and safety.
Coordinate with architects, structural consultants, and vendors for project implementation.
Monitor project timelines, cost control, material procurement, and resource utilization.
Review drawings, BOQs, and specifications; ensure compliance with project requirements.
Prepare and present progress reports to senior management.
Resolve technical issues and support junior engineers and site supervisors.
Ensure adherence to statutory, environmental, and safety regulations.

Required Skills & Competencies:

Strong knowledge of construction methods, project management, and structural elements.
Proficiency in MS Project, AutoCAD, and other project tracking tools.
Excellent leadership and team coordination abilities.
Strong decision-making, problem-solving, and communication skills.
Ability to handle multiple sites/projects independently (if applicable).

 **Salary:** Commensurate with experience and qualifications

 **Joining:** Immediate / As per notice period
